

Germany Submits Reparations Note To The Entente

Proposes System of Annuities Estimated at 1,200,000 Marks early, Effective in 1927.

(By The Associated Press)
BERLIN, June 7.—Germany's reparations note which was handed to the Entente and United States government today proposes a system of annuities estimated to total 1,200,000,000 marks annually if an international loan is not available for immediate payments. The annuities would be effective in 1927 and their number and amount would depend on the degree of Germany's economic recovery.

The memorandum declares an inevitable requisite of a general conference at which Germany would be admitted on an equal basis. The memorandum reaffirms Germany's good will and desire to meet her obligation and asserts the conviction that the problem should be submitted to an impartial enquiry the verdict of which would be accepted by the German government. The document is brief and devoted to elucidation of the mooted points on which the creditor nations had requested amplifying statements. It makes no mention of the political situation, the Ruhr, or the question of abandoning passive resistance and indulges in no recriminations. Neither does it refer to the conditions under which Germany is prepared to carry out the payment of the annuities as a guarantee under the annuities the German government pledges the system which would be capitalized at ten billions marks yielding a bonded interest annually of 500,000,000 marks.

Pitcher Friday Is Purchased By Washington Club

It was learned here today that Pitcher Greer Friday, of the Raleigh club in the Piedmont league, has been added to the roster of the Washington American team. Friday will report to the Senators at the end of this week. The owner of the Washington club and a scout were in Raleigh several days ago to watch Friday work, they having learned of his good pitching with his delivery by reason of the fact that they secured him from the Capitals.

Plan Program Of Systematic Giving To Churches Now

(By The Associated Press)
NASHVILLE, June 7.—Plans for enlisting every Baptist church in the South in a programme of systematic and proportionate giving to denominational objects was started today by the committee of the Southern Baptist \$75,000,000 campaign, with Dr. O. E. Bryan, of Atlanta, in charge of this phase of the work. Dr. Bryan resigned as superintendent of evangelism and evangelizing of the home mission board with his delivery of a testimonial convention yesterday in order to take up the new work. While one of the objects of this programme is to assist in raising the full 75 million dollars for the campaign by December 1924, also contemplates the laying of a sure foundation for the support of all church work after this five year programme is completed.

Man Is Choked To Death By Collar As He Laces Shoe

NEW YORK, June 6.—Funeral services were being arranged today for Max Lange, forty-two, a salesman of No. 100 Prospect Park West, Brooklyn, who was returning from his mother in Denmark when he strangled to death while lacing his shoes aboard the Scandinavian Liner United States, which docked last night. Seized with a fit, his tight collar choked him before he could straighten up.

PROPERTY TRANSFERS

Deeds of bargain and sale recorded in the clerk's office of the corporation court show the following transactions:

I. N. Dodson from Patton, Temple & Williamson, Inc., 45 feet on Marshall street. Consideration \$2,250.

A. E. Fogleman from J. W. Woodworth, 45 feet on Halifax street. Consideration \$2,250.

Hampton C. Ferguson from H. E. Ferguson, 45 feet on North Main street. Consideration \$4,250.

If for any reason you fail to receive your copy of THE REGISTER daily Phone 21 between 8 and 9 a. m., and another copy will be sent free of charge. The publisher is anxious that every subscriber receive their paper daily and wants to know whenever there is any irregularity in the delivery of THE REGISTER.

Edison Recalls the Old Days

Thomas A. Edison visits his old shop in New York City and sits in the electric auto Leon Mendel built 40 years ago when Edison was first experimenting with his electric lighting system.

Separate Primary Plan Ruled Out

Danville Will Vote in All Legislative Candidates—Convention to Be Held for Senatorial Nomination.

The three members of the House of Delegates from Pittsylvania county and the city of Danville will be nominated in a primary election which is to be held August 7, next. There will be no separate primaries for the city and county, all candidates being voted on by the voters of the entire district.

Two Democratic candidates to the state Senate from the 15th, senatorial district, composed of Danville, Pittsylvania, Henry and Patrick, will be nominated at a convention to be held in this city on Friday, July 27, at which convention representation will be as follows: Pittsylvania, 27; Danville, 18; Henry, 9 and Patrick, 12.

The decisions indicated above have been made by the respective party chairmen, Col. E. S. Reid, of Chatham and John W. Carter, of Chatham, who for the legislative district, the same gentlemen together with H. L. Byrd of Martinsville and T. Lee Clark, of Stuart, acting for the senatorial district.

Says Report On N. C. Financial Condition Pleasing

(By The Associated Press)
RALEIGH, N. C., June 7.—While no official announcement of the report of auditors investigating the state financial condition has been authorized for publication, the Associated Press today learned from an authentic source that the accountants before leaving Raleigh told B. R. Lacy treasurer that their report probably would be made to the Senate and one he could make himself. The probe was ordered by the Assembly following charges that a deficit of about \$5,000,000 existed in the state treasury. The report of the auditor will be made to the Senate by Long, chairman of the legislative committee in ten days.

Added Term For Bank Cashier

(By The Associated Press)
GREENSBORO, N. C., June 7.—From one to two years in the state prison was the sentence imposed today on B. F. Hedgecock, former cashier of the Home Bank, who was charged with the embezzlement of \$5,000. Hedgecock's sentence will start at the conclusion of the three year term he now serves for making false entries in the bank's books.

THIRD INMATE OF INSANE HOSPITAL BEATEN TO DEATH

GENEVA, June 5.—It is expected that Gov. Smith will be asked today to authorize a thorough investigation of the Willard State Hospital here, where three inmates in the past few years have been beaten to death in one of the other cases was the culprit found.

The latest inmate to die as a result of mysterious assault was Jesse Parsons. His body, beaten almost beyond recognition, was found at the institution yesterday. Some one of the crazed inmates is believed to have committed the crime.

Chamber Of Commerce Co-Operates In Plans For Road Completion Fest

The Danville Chamber of Commerce has already begun negotiations with the Reidville Chamber of Commerce in carrying out in co-operation with the Rotary Clubs of both towns a festive programme on July 4th by which time it is hoped that the concrete road between the two communities will have been thrown open to the public. The plan now is to arrange for a big barbecue at some place between Reidville and Danville. Ruffin, N. C., being already suggested—and that an appropriate ceremony be arranged for the completion of the important road link. Henry B. Watkins, secretary of the Danville Chamber of Commerce said this morning that he had been in correspondence with the Chamber of Commerce for Reidville and that both organizations were agreed on the appropriateness of some sort of joint ceremony.

Mr. Watkins, however, said today that no further plans would be made until he receives some direct word from the contractor assuming the road work will have been completed by that date.

An appeal assurance was given this afternoon that the road work would be completed in time for the proposed celebration. A reporter reached the superintendent of the road work at Stacey, N. C., by telephone and he said that barring some unforeseen contingency, the last section of the concrete road would be poured on July 1st. Effort that about one mile and a quarter remains to be poured and the road programme at a rate of \$30 feet a day he estimated that the task would be completed in twenty workdays from today.

Late News Bulletins

(By The Associated Press)
COLUMBIA, S. C., June 7.—The Carolina chapter of the Rainbow Veterans' Association today had taken possession of Columbia several hundred members of the famous Rainbow division from North Carolina and South Carolina, being here for the annual convention and reunion. The meeting will last through tonight.

(By The Associated Press)
MADISON, Wis., June 7.—The state Senate yesterday adopted resolutions denouncing an attempt of the United States to enter the league of nations or to be associated with the world court.

Dan Cupid Is On The Job

(By The Associated Press)
CHICAGO, June 4.—Any doubt that summer has arrived and that Dan Cupid is on the job was dispelled today when one hundred couples applied for marriage licenses in three hours. This beats out the time honored adage that "June is the month of brides." The youngest applicant was Miss Marie Peering, 17, accompanied by Walter A. Schaner, 23, her fiancé. The oldest to follow the magic touch of June was Andrew Rhodes, aged 75, whose fiancée is 51.

West Side rabbis are reaping a golden harvest. More than 200 couples were joined in wedlock in the ghetto yesterday and every hall was the scene of banqueting and festivities. Florists and cabmen did a thriving business and photographers are swamped with orders for "wedding pictures."

Schenectady Car Strike Is Marked By Lawlessness

(By The Associated Press)
SCHENECTADY, N. Y., June 7.—Riots in which shots were fired and stones thrown marked the first strike here today. Cars were abandoned in the street when bombarded by stones. Rescue crews attempted in vain to take two stalled cars, with their windows broken, from the burning. Shots fired by the crews' guard failed to repel the mob. The crews were chased to the barn and besieged there and bombarded with stones. The violence was attributed to strike breakers and their guards by Mayor Whitmyer. He said a contributing factor was the display of firearms by strike breakers.

During the night half a dozen cars were wrecked.

Dry Leader Heaps Abuse On Smith

MONTGOMERY, Ala., June 7.—Charging that Gov. A. I. Smith of New York, has elected himself chief commander of the "Bullfinches, Bootleggers and Rum Runners" Dr. Perley Baker, general superintendent of the Anti-Saloon League of America today announced that the league will accept the challenge of the New York governor.

AVIATOR WHO CARRIED PEACHES DROPPED KILLED IN "TAKE-OFF"

BALTIMORE, June 6.—One of the aviators who brought President Harding a basket of peaches by air from Augusta, Ga., and also carried two baskets of cotton to New Bedford, Mass., yesterday to be made into Shriners' aprons and rushed back here for the convention, was killed when his plane was wrecked at Aberdeen, Md. today.

The dead man is Lieut. Wendell K. Phillips of New York. Capt. F. J. Wilder was seriously injured and Sergt. C. J. Lunt, Carl Johnson and Privates C. A. Helton and W. Heldt were less seriously hurt.

Lieut. Phillips was at the stick and was speeding across the flying field preparatory to taking off. Before he could rise the landing gear crumpled and the plane crashed, sending him along the ground, plunged over an embankment and into a sand bank. Phillips with a broken skull died 45 minutes later. It is expected all the others hurt will recover.

MOTOR GO-CART TOTES NURSE AND HER BABY

ATLANTIC CITY, June 7.—Baby and nurse will soon compete with dad and roll along the highways in their "motor go-cart" if the idea of W. H. Dunkley, of Dunley's, Ltd., London, is successful.

Dunkley, a delegate to the Associated Advertising Clubs of the world, in correspondence here, has invented a gasoline go-cart.

The nurse finds comfortable footing on either side of a low wheel, which is connected with the perambulator. The baby is seated in a basket, and the nurse can push or pull along smoothly without effort. No nurse except to repair punctures and keep the tank filled. A melodious siren, to warn pedestrians, is attached.

STOCKS WORTH \$111,000 VANISH FROM BOY'S POCKET

NEW YORK, June 7.—James Foley, 18, a messenger reported today to his employers, Charles A. Barry & Co., brokers, that 3,900 shares of common stock of the Continental Can Company, worth \$141,000, had mysteriously disappeared from one of his hip pockets while on his way to deliver them.

Foley has been employed by the banking firm about a week.

MAKES HIS POSITION CLEAR

Hunter H. McGuire who attended the making of North's opera held in Belvidere school a few nights ago today sought to clarify an impression created through the recent publication of the evening's proceedings. Mr. McGuire said that he favored the school band, but that he was opposed to any of \$50,000 favoring the issue of \$150,000. This, he stated, he made clear in the remarks he made. He also declared himself to be in favor of the \$50,000 bond issue to be voted on next June 19th. (Next Tuesday week) at the same time as the school bond issue.

Man And Wife Must Die For Murder of 33

Dying, Confesses To Four Murders Done 30 Years Ago

PONTOTOC, Miss., June 7.—On his death bed, John A. Matthews, one of the wealthiest planters in this part of the country voluntarily confessed to four murders, all of them committed more than thirty years ago. He gave the details of two of the crimes and tacitly admitted the others. A youth was hanged for one of the murders, of which Matthews gave the details.

Matthews was postmaster of Matthews, Miss., a town which was named after him. He was a pillar of the church, his life has always been apparently exemplary and his confession has shocked this part of the State. Matthews relapsed into consciousness after "baring his soul" as he expressed it.

In 1884 the Herman brothers were killed. They had given testimony against a Will Matthews, who had been convicted of killing two United States Marshals and hanged. Robert Lawrence, Dan Bishop were accused of the crime.

A Deputy Sheriff named Wise was put on trial and Matthews, who has just confessed, said he offered to aid him in running down the criminals. Matthews killed the two Federal officers and buried his body in the bushes. Matthews also admitted, but was too weak to give any details, that he had killed his wife's first husband. So many years have passed since the crimes were committed that there are few, if any, here who remember any details of the murder.

"I don't know why I am confessing at this late date," Matthews told those who had gathered around his bed at his summons. "I know it cannot do those I killed any good, and I cannot do my soul any good, but I am mostly concerned over the young man who was hanged because of the murder I committed."

The youth hanged was Dan Bishop, who was charged with the murder of Deputy Wise. It was generally believed that Bishop killed the two Federal marshals, and it is only now that his name is cleared of the triple crime. Bishop was hanged at Pontotoc, Miss., and Matthews attended the hanging. The former Mrs. Matthews, who was divorced from him about fifteen years ago, and her first husband was employed by Matthews and the husband died under mysterious circumstances, it being supposed that he took poison instead of a cough cure. A few months later his widow married Matthews, but they were never happy. Matthews was an Englishman. The only feeling against him in this section was that he refused to become naturalized, and during the World War, he bought Liberty Bonds, and although urged to become a United States citizen, always refused. It is believed now that he thought it would have been to his advantage to be a British subject, for he been arrested for the quadruple murder.

Vasili Komruff and Wife Sentenced to Be Shot in 72 Hours—Loud Applause Given Sentence.

(By The Associated Press)
MOSCOW, June 7.—Vasili Komruff, convicted of the murder of 33 persons and his wife as his accomplice were sentenced today to be shot in 72 hours. Neither betrayed emotion as sentence was passed but there was loud applause and cries that the sentence be carried out immediately.

Republican Party Getting To Work

WASHINGTON, June 7.—Preliminary organization work for the 1924 Republican campaign will be started in the next few weeks in a series of regional conferences between Chairman Adams and National Committeemen and State chairmen to be held at various points of the country. In announcing plans for the conference Mr. Adams said today that his purpose would be to bring the national organization and State workers into co-operation and to lay the foundation on which next year's campaign will be conducted. Questions of party policy would not come up at the conferences nor any discussion of candidates. Before starting out on the programme of conferences the national chairman will discuss the general political situation and the plans of the national committee with President Harding. The first conference in Boston will be followed by a meeting in New York.

Historic Parade Shrine Feature

(By The Associated Press)
WASHINGTON, June 7.—Another day of crowded activities for the Shrine delegation attending their annual convention here preceded the historic parade along Pennsylvania avenue tonight, as probably the most important of the national committee's plans for the week concluded. A concert at American League park by the massed bands of all temples led by Noble John P. Sousa, was one of the feature events today. There also were additional air service, cavalry and artillery stunts for the veterans. Social functions included a dinner to Imperial Potentate C. V. Dykman. The council was also holding its final session today.

ADD \$6 GERMANY DISAPPOINTING TO FRANCE.

(By The Associated Press)
LONDON, June 7.—The new German reparations plan, which Ambassador St. Hamer will present to Lord Curzon today is considered as offering an advance over the previous note but is expected to be disappointing to France. A British expert is expected to mention a specific amount of reparations.

Wisconsin Repeals State Liquor Law

Yanceyville Man Weds in Portsmouth

YANCEYVILLE, N. C., June 6.—The following announcement which was made in a Portsmouth paper will be read with interest by many friends of the couple: "Mr. and Mrs. Virgil Powers, announce the marriage of their grand-daughter, Mary Hatcher, to a local gentleman, the chet, of Yanceyville, N. C. Saturday morning, May 26, 1923, in Portsmouth."

Mr. and Mrs. Hatcher are now residing at Pleasant Grove farm near here.

Assembly Takes Vote of 47 to 4 on Matter.

(By The Associated Press)
MADISON, Wis., June 7.—The Wisconsin assembly today voted 47 to 43 to repeal the Severance law, the state prohibition enforcement statute. The action followed an effort to kill the bill which met defeat by the same vote.

GIRL DROWNS IN RIVER BECAUSE SHE LAUGHED

BLADENSBURG, Md., June 7.—Miss Emily Hackley, the 14-year-old daughter of George W. Hackley, Sand street, here, was drowned about 1 o'clock this afternoon while bathing in a hole in the Potomac river, which is known as the Eastern branch of the Potomac river, about 300 yards south of Bladensburg. According to eye-witnesses, Miss Hackley was laughing as she began swimming across the stream, which is between 40 and 50 feet wide at this point. When in about seven feet of water she became strangled when she gulped a quantity of water and sank. Charles Leonard, of Hyattsville, who was swimming by her, made heroic efforts to rescue her.

Sergeant and Mrs. R. W. Towner of Greensboro, N. C., are visiting Mr. and Mrs. Lawrence K. Fursurson on Stokes street.

Toll Bridge Keeper Skips Bail At Clarksville; Faces Shooting Charge

(Special to The Bee)
CLARKSVILLE, Va., June 7.—The Mecklenburg county officer has begun a search for B. D. Murphy, keeper of the toll-bridge, near here, who is charged with shooting Robert Sanford of Stem, N. C., on the evening of May 26th. Murphy has left these parts and failed to appear in court yesterday when he was called to answer a charge of felonious assault.

Sanford who was taken to a hospital in Durham with a bullet through his head is reported now to be out of danger, improvement having been shown in his condition during the past few days.

Murphy was placed under arrest after the shooting episode and was released under a bond of \$300. J. T. Willis, a local merchant being security. This bond has been forfeited.

Mr. Willis reporting that he did not know where the man for whom he had gone surety was to be found. A good deal of feeling had been noted against Murphy especially after the alleged facts in the shooting became known.

Murphy claimed that Sanford failed to stop when he got to the toll-bridge in order to pay the toll, opening up his car and speeding across the bridge. He was then on his way to Chase City to see his fiancée. The toll keeper armed with a rifle, shot twice at the car. He claimed, with a few words, that he was in danger, and that the bullet which would have struck the man, but hit the young man in the back of the head, the ball emerging from the forehead.

Descriptions of Murphy are now being prepared and will be broadcasted during the course of today.

TWO.

BARBOT FLIES FLIVVER INTO LARGE TREE

(By The Associated Press.)
PAULSBORO, N. J., June 6.—Geo. Barbot, who left Garden City, L. I., this morning in an attempt to fly his "flivver" airplane to Washington, D. C., was caught in a strong gust of wind while passing over here and crashed into a large oak tree near Mantux Creek before he could get the machine under control.
Barbot, with Lieutenant Francis B. Valentine as a pilot in a larger plane, stopped at Pine Valley shortly before one o'clock after having come from Garden City without mishap. Valentine, however, in making a landing, stripped his landing gear and was unable to continue the trip. Barbot, a few minutes later, took the air without the larger machine to guide him. He ascended to a height of about 10,000 feet and was gliding downward in the direction of his journey when a strong westerly wind seized the tiny "flying flivver" and tossed it into a side slip. The Frenchman was unable to right the machine as the motor had then "flivvered" only about three hundred feet from the earth.
The left wing caught in the branches of the tree and the plane slid gently to the ground. Barbot leaped without a scratch. The plane was not badly damaged. As soon as a new wing was put in place, Barbot plans to make the attempt again.

REPORTS DENIED.

(By The Associated Press.)
PORTLAND, Ore., June 6.—Denial of reports of lawlessness in Shelby, Montana, were made by Mayor James A. Johnson of that city, who is here today.
"Shelby is no worse in regard to liquor than any other city," said the mayor. "I will say that conditions are as good there as in any of the western cities. There is drinking everywhere, but there is no special lawlessness in this respect in Shelby."

Liver and Bowels Right—Always Feel Fine

There's one right way to speedily tone up the liver and keep the bowels regular.
Carter's Little Liver Pills never fail. Millions will testify that there is nothing so good for biliousness, indigestion, headache or sallow, pimply skin. Purely vegetable. Small Pills—Small Dose—Small Price.

Garden City, Mo.
Corn. Patton & Bridge

GOOD YEAR

Dr. C. W. Pritchett Elected Pres. of Danville Lions

The Lions Club last night at its annual election of officers named Dr. C. W. Pritchett, president, to succeed Judge E. J. Harvey, first president of the organization. Other officers elected were: W. R. Harrison, first vice president; Richard P. Moss, second vice president; Col. W. M. Kemper, third vice president; Herbert Hoffmann, secretary; W. R. Harrison, treasurer; H. G. Clark, lion tamer; M. T. Skadden, tall twister; directors: W. M. Bryden, D. B. Owens, for two years; H. E. Spessard and W. E. Meade, one year.
"Skad" Skadden was a sorely disappointed man last night. All of his political genius was turned toward securing his election to all of the offices. He succeeded in beating Zollie Ellis out of the tall twisting job, but that was because Zollie was out of the city and could not defend himself. He made an active campaign in his behalf. In view of the nature of the duties of this office—a cross between that of high sheriff and chief executioner—it is not to be wondered at that Zollie was beaten. He was probably Skad's one chance. He seized it. However, that did not deter him from trying for every place from president down. As a stump speaker he is all right, as a political organizer he has a great deal of learning while he is doing much of talking on a number of things his opponents were marinating the votes, and it was votes that won. What it was an interesting meeting, enlivened by badinage and drollery, contributed for the most part by Skadden and Red James.

Dr. Pritchett, the new president, has served as first vice president since the organization of the club and has been quite active in its affairs. The incoming officers and directors will assume duties at the first meeting in July.
A proposal to contribute \$25 toward the \$8,000 fund being raised to hard surface the road on Schoolfield hill was unanimously passed. A bond practically all of the money contributed by the club toward the "community camp" was paid last evening by the members, and assessment being levied on individual members to raise the club's share.
Before the meeting adjourned expression was made and placed in the form of a resolution which was unanimously passed acknowledging appreciation for the untiring services of the officer personnel of the club to retire in July.
The attendance prize for the meeting was won by R. E. Tobin.

U. S. WARRANT IS SERVED ON BILL MORRIS IN CASE

The federal warrant against Bill Morris, pending for several days, was served yesterday. It is in the sum of \$1,000 and is returnable this morning before United States Commissioner Champ Barksdale. The warrant charges interstate traffic in stolen cars. It is understood that the preliminary hearing will be waived. It is probable that Morris will be tried in Greenville, S. C., where the alleged stolen car was sold.
The car in question originally belonged to Rube Frazier and was confiscated by Martinsville officers when a load of liquor was found in it. Through the connivance of Martinsville police officer Frazier, who gained possession of the car, a Dodge touring automobile, and the machine eventually found its way to Greenville, N. C., where it was stored in a garage.
It is said that the car was turned over to W. M. Snead when Frazier went to the penitentiary; that Morris was delegated by Snead to dispose of the machine and that he went to Greensboro, secured the car and took it to Greenville, S. C., where he sold it.

ADAMS-REYNOLDS

A marriage of interest to the friends of the young couple both in this city and county was celebrated last Tuesday evening when Miss Christabel Reynolds became the bride of T. J. Adams, both parties being residents of Calhoun county. The ceremony was performed at the residence of Rev. J. Clyde Holland, on North Main street at six o'clock. The bride who is the daughter of Mr. and Mrs. H. A. Reynolds is a member of one of the prominent families of her community. The groom is a young man of excellent character. Mr. and Mrs. Adams left today for Richmond where they will make their home.

GARDEN CLUB TO MEET.

The Garden Club will meet Friday afternoon at six o'clock in the garden of Mrs. W. T. Boatright.
—Miss Georgia Gwynn, high school graduate this year, leaves today for New York.

HOW TO CARE FOR THE BABY DURING THE HOT SUMMER

BOTTLE FEEDING
THERE is no such thing as cheap milk for children, particularly babies. Milk and all that concerns it is more important to the baby than anything else put together. The best milk is mother's milk; and the best substitute, when mother's milk cannot be had, is certified cow's milk. If certified milk is not available, buy pasteurized milk—or pasteurize it yourself.

If you pasteurize it yourself start by buying "bottled" milk; the chain from cow to baby is long enough at best, and milk sold in any other way than bottled involves more changes of receptacle and every change increases the danger of contamination. Select as many smooth round nursing bottles as you are giving feedings in 24 hours. Clean them thoroughly when you get them and repeat the process after each feeding by rinsing in clear water, soaking in soda, borax or soap water, scrubbing with a clean brush in warm soapsuds and rinsing in boiling water.

Get the same number of collapsible nipples, which clean after each feeding by scrubbing inside out in warm soapy water. Boil them once a day. Never touch the part of the nipple that goes into the baby's mouth.

Now you are ready for pasteurizing. For home pasteurization should always be done in the feeding bottle. Mix the milk as directed by the doctor's "formula," and pour the mixture into a wire basket, which put into a tin bucket filled with water a little above the level at which the milk stands in the bottles. Milk is pasteurized by heating it to 160 degrees Fahrenheit and holding it there for 30 minutes, but if you find this difficult you may gain the same effect by boiling the water in the tin bucket for five minutes, setting it aside for 10 minutes and then running in cold water until the milk reaches the temperature of the running water. Then put it into the chest, which should not be warmer than 50 degrees Fahrenheit.
If no ice chest is convenient a simple and effective one can be made from a grocery soap box 15 inches deep. Make a cylinder of oil cloth or holeproof that will fit loosely about an earthenware crock tall enough to hold a quart bottle or seven or large enough to hold six or seven

feeding bottles. Put crock and cylinder in the box and pack beneath and all about the sawdust or excelsior. Pack newspapers to the cover of the box. When the milk comes, put the bottle (or the pasteurized nursing bottles) into the crock and pack them with cracked ice. Put on the crock cover and close the box tight. When feeding time comes take out a bottle, shake it gently, and warm it by placing in a pan of warm water.

All "bottle" babies, particularly all taking boiled or pasteurized milk, must always be given orange juice or strained tomato juice if oranges are unobtainable. Begin with one teaspoonful mixed with an equal part of cold boiled water just before the morning bath and feeding. Increase gradually to two or three teaspoonsful by the time baby is a year old. A new born baby needs very little food for a day or two. The first feeding should be one tablespoonful of milk, two or three tablespoons of milk, and a sugar of a young baby cannot digest plain cow's milk it must be modified accordingly by adding such amounts of water, sugar, barley water, lime water, etc., as may be prescribed by the physician. Condensed milk, if available, must be changed as the baby grows older.

The baby should lie down while feeding and the bottle should always be held. Do not urge him to drink more than he wants and never let him drink more than 30 minutes. Throw away any milk left in the bottle.

After feeding, hold baby up and pat him gently to bring up any gas or air. Then place him in bed; do not rock or play with him. And do not let him suck on an empty bottle or a nipple.

Patent foods tend to make fat babies rather than strong babies; do not use them exclusively or continuously. Condensed milk lacks some of the necessary elements and is likely to cause indigestion and predisposes to rickets if used continuously. When fresh cow's milk can not be had milk made of powdered whole milk containing 1-2 per cent. of butter fat will be found a good substitute.

Bathing the baby and care of its body are treated in the next article.

Further Light Is Shed On Library Site Controversy

The controversy over the location of the new library at the Confederate site, Miss Augusta Yates yesterday took issue with an article that appeared the day before, which named the location of the capital as the old Benedict house on Wilson street. Pollock's history of Danville, is authority for ascribing the honor to the Benedict house. It is Miss Yates' recollection that "The End of an Era," named the Southern residence as Danville's last executive office. In the "Memoirs" of Jefferson Davis, in a letter written in Danville, to Mrs. Davis, he says, "We are arranging an executive office where the current business may be transacted here, and do not propose at this time definitely to fix upon a point for a seat of government in the future." In another letter written in Danville to his wife, President Davis says, "The people here have been very kind, and the mayor and council have offered assistance in the matter of quarters, and have very generously declared their unabated confidence in me."
The "Memoirs" contained no definite information as to which building in this city was used by him as executive offices. Probably, had he known that a controversy would arise in the years to come, he would have set down, with care, the location of the Danville offices of the Confederacy. His mention of time and place is only casual. The only definite thing he says in regard to the matter is that no definite place for seat of government had been or would be fixed. The fact of the matter is, that if the Confederacy can be said to have had a seat of government in the parlous time following the surrender of Lee at Appomattox, the location of that seat cannot be fixed at any one or more points, but can with approximate truth be said to have been moving from place to place.
In the "Memoirs" Mr. Davis tells of meeting most of his cabinet in Greensboro, where plans for the future were made. At that time all here had been abandoned. It was thought that General Johnston could unite the southern armies in the field and make an effective resistance to the Federals. General Johnston had a conference with General Sherman and terms of surrender were reached. About this time Mr. Davis and his party which included most of his cabinet proceeded to Charlotte, N. C., where they stayed several days.
Mr. Davis tells in his own words of riding out of Charlotte with all but two members of his cabinet. A stop was made at Abbeville, S. C., where Mr. Davis and his cabinet discussed disposition of the Confederacy funds, which were found by the party on

reaching Abbeville. As G. A. Trenholm, secretary of the treasury, had been quite ill, another secretary of the treasury, John H. Reagan, was named by Mr. Davis. The meeting of the cabinet at Abbeville was evidently the last ever held.
It was at Abbeville that the members of the cabinet left Mr. Davis, the several members proceeding on their ways, and Mr. Davis to Washington, Ga.
Another point has been raised by opponents of the library site. It is asserted that the exact location of the proposed library was not fixed in the beginning and therefore these who are now opposing the move did not know until much later just where the building was to be placed.
In reply to this the terms of the offer as made by the Public Works Commission of Council explicitly state where it was proposed to build the library. These terms were published in the Register of February 14 and are as follows:
City of Danville, by proper enactments of the City Council, will make available as much of the lot at the corner of Main street and Southern avenue as may be required for the construction of a modern library building at a cost not to exceed twenty-five thousand dollars. It being contemplated that said building will be constructed to the east of the Memorial Mansion substantially on a line with same, and of such type and construction, and so placed as to harmonize with the Memorial Mansion building and other buildings in that locality and to that end, the City Attorney is hereby requested to prepare all necessary resolutions and ordinances so that so much of the lot as may be required may be set aside for the above purpose, and the City Engineer is requested to promptly co-operate with the City Attorney and the Library Board, hereinafter created, to facilitate in every way the accomplishment of the purpose herein set out. The actual construction of said building shall be under the supervision and control of a Building Committee to be appointed by the Library Board, hereinafter created, and the City Engineer shall be elected at the next regular meeting of the Council. And the construction of said building shall be in accordance with plans and specifications to be submitted by the said Building Committee and approved by the Committee of Public Works of the City Council."

LIGHTNING KILLS TWO.
CLEVELAND, O., June 6.—Two deaths were recorded in Ohio when two electric storms swept the state today bringing to an end the sixth day of a wave of heat. The third victim, a woman, was attributed to the heat, making a total to this cause in the state of six.

LEGION TO MEET THIS EVENING

The monthly meeting of the Danville Post, American Legion, will be held tonight at 8 o'clock at the Y. M. C. A. Business of importance will come up for disposition at this meeting and a large attendance is urged.
It has been announced by state headquarters of the American Legion that the Danville Post is now leading in the percentage of increase in members for the past year. This is a splendid record and reflects much credit upon the present officers of the post.

ROAD SUBSCRIPTIONS.

The following additional subscriptions have been made to the fund, which is being raised toward the paving of Schoolfield Hill to the history county road:
Previously reported \$1,285.50
Jim Oakes \$5.00
F. G. Martin \$5.00
W. W. Walton \$5.00
A. E. Daniel \$5.00
P. R. Hatcher \$10.00
Frank E. Davis \$5.00

BOY DISLIKED ASST. PRINCIPAL, SHOTS AT HIM

(By Chicago Tribune Service.)
NEW YORK, June 6.—Because he "didn't like him," a 15-year old high school boy today fired a revolver shot at Dr. Walter E. Foster, assistant principal of Stuyvesant High School, narrowly missing him.
William M. Smith, manual training instructor, reported to Dr. Foster in charge of discipline of the 5,500 boys of the school for the afternoon, that he had taken a loaded pistol magazine and went to the manual training room.
Scherer denied that he had a pistol or knew anything about the magazine. Dr. Foster took him to the locker room and had him open his locker.
"You can see there isn't any gun in there," said Scherer. The assistant principal looked in and saw a high army automatic on the shelf. He took it down and turning to the boy, asked: "Is it loaded?"
"Let me look at it," answered Scherer.
Dr. Foster, without warning the boy stepped back two paces and fired a shot at Dr. Foster. The bullet lodged in the wall at about the height of Dr. Foster's waist. It missed him by less than an inch.
The assistant principal seized the boy and wrested the pistol from him with the help of others who ran in. A policeman was summoned.
Dr. Foster said he did not remember ever having noticed the boy before. Scherer's parents said the youth's act must have been the result of overstudy.

ACTRESS HAS CENTIMETER LESS NOSE THAN BEFORE

PARIS, June 6.—Yorska, a Yiddish actress, born in Chicago, has a centimeter less of nose this afternoon than last night.
Dr. Bourget, a plastic surgeon, successful in hundreds of war cases, removed a sizeable chunk of the end of Yorska's nose. The operation was completely successful and Yorska now intends to stick to her movie job with her renovated profile.
She appeared in French movies as a protegee of Sarah Bernhardt.

SPAIN TO HONOR FOUNDER OF ST. AUGUSTINE

NEW YORK, June 6.—Harking back to the days of conquest when proud galleons sailed into the setting sun to explore the riches of this newly discovered hemisphere, the little village of Aviles, Spain, has invited St. Augustine, Fla., to return a social obligation incurred 358 years ago.
Aviles is making ready to move the bones of one of its proudest Castilians and most noted heroes, Adelantado Pedro Menendez de Aviles, to a new and more pretentious sepulcher. And, since de Aviles was the founder of St. Augustine, oldest white settlement on the American continent, that city has been asked to send some of its natives to Spain for the ceremonies.

So confident is Aviles that the invitation will be accepted that one of her sons, Don Angel Cuesta, a millionaire in his own home town and for 30 years a resident of Tampa, Fla., has sailed for Spain to welcome the American delegation when it arrives for the celebration in August. In fact numerous entertainments and festivities for the St. Augustinians are already being arranged over there, according to the American press. Spanish newspaper correspondents in this city from Don Julian Orbon, director of the ceremony.

The invitation to St. Augustine is reported already on its way. Another invitation to the United States government, with a request that it dispatch a gunboat overseas for the occasion, is reported to have been tendered through the American ambassador at Madrid. A third invitation is said to have been sent to Senator Fletcher of Florida, asking him to have the battleship Florida designated for this mission.
Adelantado Pedro Menendez de Aviles was a "haughty adventurer in the reign of King Philip II whose name appears in the almost-forgotten histories of more than one American settlement.

He was born at Aviles, in the province of Asturias, in 1519 and, like many of the aristocratic youths of his day, the castles of his ambition lay to the westward where Columbus, the Italian to whom Queen Isabella had been god-mother, had but recently found fame and fortune. He joined the navy, became a captain general, served his king in many daring enterprises and in 1560 landed in prison, disgraced.

But Columbus, too, had been disgraced once, so this young Spaniard kept heart in five years he regained the king's favor and shortly was appointed governor of Cuba and Florida, with orders to colonize the latter country.

With a proud armada of 19 ships and 1,500 men, de Aviles sailed from Cadiz in 1565. A storm scattered the expedition. Only seven of the ships reached Florida. Ten weeks from the day they embarked, de Aviles founded St. Augustine and, after massacring nearly all of a colony of French Protestants that clung precariously to the banks of the St. John's river, Spanish dominion was established over Florida.

On subsequent expeditions Menendez raised the flag of his king over a post on Fort Royal Bay, South Carolina, and founded a mission on Chesapeake Bay. When the Indians annihilated the latter colony in 1572, the founder sailed his ships up the Chesapeake and Potomac and slaughtered hundreds of the red-skinned natives.

His career ended at sea, for he died

soon after being placed in command of an armada which was destined to descend upon the Netherlands.

—Powhatan Fugate Harper, son of Dr. and Mrs. C. E. Harper, has just returned from New Bedford, Mass., where he received his diploma in special textile and architecture.

Corns

Lift Off with Fingers

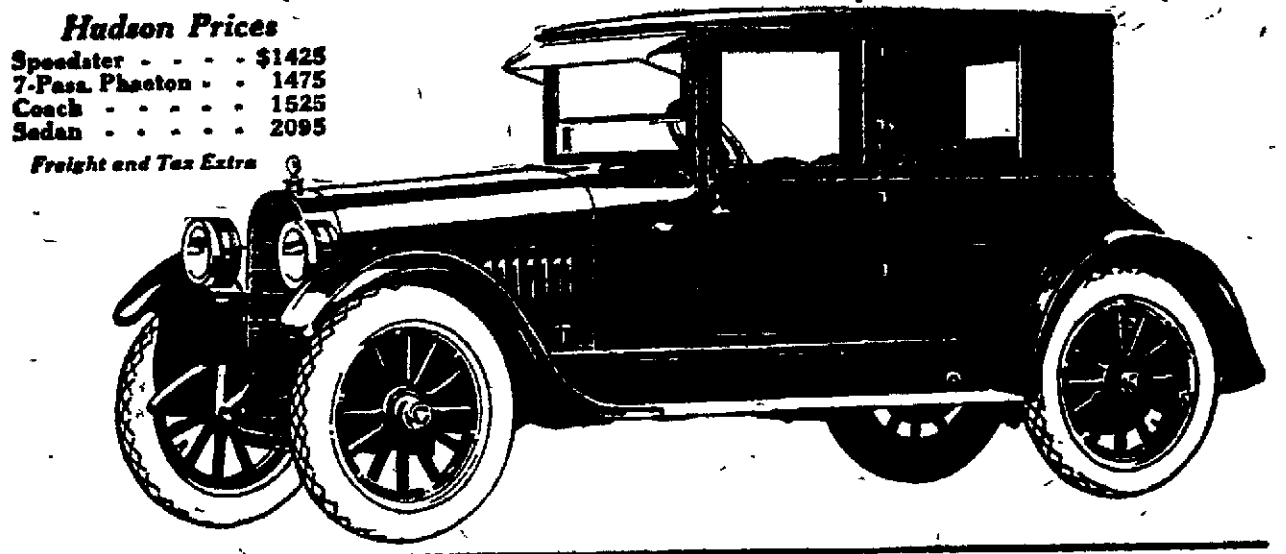

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly you lift it right off with fingers. Truly!
Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.—adv.

Child-birth

Here is a wonderful message to all expectant mothers!

When the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has written the way. It was he who first produced the great remedy, "Mother's Friend." Mrs. C. J. Hartman, Scranton, Pa., says:
"With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used 'Mother's Friend' and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes." Use "Mother's Friend" as our mothers and grandmothers did. Don't wait until today and meanwhile write to Bradfield Regulator Co., B. A. 46, Atlanta, Ga., for a free illustrated book containing information every expectant mother should have. "Mother's Friend" is sold by all drug stores—everywhere.

HUDSON Coach \$1525

What a Life!

It's hard enough for grown-ups during the hot months—but pity the poor infant. It suffers as much or more than its parents and can't tell what is wrong.

To assist young mothers in the summertime care of their babies, a series of articles on care and feeding of infants will be printed by

THE BEE

These articles were prepared especially for us by the U. S. Public Health Service.

Be sure to read them.

Hot Spell Alarms Experts Who Lay It to Sun 'Strike'

Sudden Shifts Are Expected
—Cold Wave Sweeps Over Europe.

WASHINGTON, June 6.—Weather experts who have been fearful of abnormal weather conditions because of the "sun strike," reported by Dr. C. G. Abbott of the Smithsonian Institution, are alarmed instead of being consoled by the present blazing hot spell which extends throughout the Middle West, the East from New York southward and through the South.

The sudden emergence of a period of abnormally hot weather, following a cold period, is regarded as part of the freak conditions which are expected to result from the falling off in the sun's temperature of from 3 to 4 per cent.

Further sudden changes, accompanied by severe electrical storms, are expected by scientists outside the United States Weather Bureau, which maintains that all seasons are abnormal.

While the country has been broiling under the conditions of the last two days scientists have noted with interest that Europe is having a cold spell, with temperatures of 55 reported from London, 50 from Paris, 48 from Copenhagen and 54 from Gibraltar.

While the Weather Bureau and the Department of Agriculture continue optimistic concerning conditions, the official reports of the Weather Bureau show that during April and May there was freezing weather somewhere in the territory of the United States continuously.

The result has been serious damage to crops which the Department of Agriculture has not estimated. The wheat crop has been delayed by the slow spring, while from the Middle West it is reported that approximately 20 per cent of the corn crop had to be replanted.

The Department of Agriculture professes to have no figures of the damage that has been done to fruit, grain and other crops by the late spring and by the freezing conditions that prevailed up to June 1.

About the only scientific explanation offered for these extreme undulations in weather is that the shutting off of some of the sun's heat plus the changes that have followed three successive hot seasons causes chaos in the normal effort which conditions that affect the weather are making to reach an equilibrium under new relationships.

—Mrs. B. Levinson, wife of Dr. B. Levinson, who was operated upon several weeks ago at the General Hospital, has recovered sufficiently to be taken home.

—Mrs. J. H. Shelton and four daughters of Roanoke are visiting Mrs. Lizzie Owens on North Main street.

FRECKLES

Now Is The Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as these double strength—guaranteed to remove these homely spots—Simply get an ounce of Othine—double strength—from any druggist and apply a little of it at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles—adv.

Good Morning Judge!

Only two cases were disposed of this morning in the police court, indicating that the police are experiencing a lull in their activities.

Julian Fretwell was assessed six dollars and costs for creating a disturbance by the use of profane language on the street. Police Officers Floyd Towell and Arch Morgan had approached Fretwell who was parked on the wrong side of North Union street, whereupon they alleged, he became angered and began cursing. Fretwell denied that he used any profane language, producing two witnesses who also stated that they did not at the time they were present hear any profanity.

F. T. Kemp drew a fine of \$1 and costs for failing to keep his premises sanitary.

A. L. Land was fined \$21 and costs for speeding.

Mrs. Catlin's Will Filed For Probate

The will of Mrs. James T. Catlin has been filed and admitted to probate in the Corporation Court. Mrs. Catlin who made her will last February appointed James T. Catlin, Jr., her son, sole executor and he has appeared and satisfied the usual legal formalities, the court setting bond at \$40,000. Mrs. Catlin bequeathed her residence on West Main street and all of its furniture to her son. All of her stock holdings and personal property are left to her husband.

The will also contained a provision to meet the contingency of her husband's prior death, a trust fund being created with J. T. Catlin, Jr., trustee, the revenue therefrom being directed to Mrs. Catlin's two grand-children, Juliet and James T. Catlin III, also to Mrs. Lucille Conrad Catlin, widow of her son. These final provisions were rendered void in the light of her recent death.

'Dan' Womack Weds At Yanceyville, N. C.

Lewis Armistead Womack, better known as 'Dan' Womack, was married last Monday by the Methodist minister at Yanceyville, N. C., to Miss Frances Lloyd, of Little Rock, Arkansas. C. Womack, father of the youth, admitted today that the marriage had taken them by surprise but that paternal blessings had been bestowed following their return from the North Carolina town with the news. Mrs. Womack has been a student at Mary Baldwin Seminary at Staunton and several months ago came here on a visit to Mr. and Mrs. E. C. Arey where she met Mr. Womack. She again visited here following the college finals and it was then that they decided to be married.

Mrs. Womack left Tuesday for her home in Arkansas for a two weeks' visit as it is for old times in Danville where she will make her home.

No Tail Light, Told to Stop, Refuses, Shot by Policeman

GLENNVILLE, W. Va., June 6.—Floyd Jones, a farmer, was shot and killed early today when he failed to obey the command of Charles Steel, a policeman, to stop his car and light the tail light. Steel was arrested and taken to the Lewis County Jail in an adjoining county to prevent a possible demonstration. Charles Riddle, riding with Jones, told authorities he did not hear Steel's command to halt.

Lillian's Beauty

Lillian, Russell, America's beloved actress, is dead. But her beauty lives on. This girl, looking all the world like her, is Bonnie Murray, winner of a beauty contest in Des Moines.

Raid At Hotel Nets 6 1-2 Gallons

Police officers, acting on information yesterday afternoon, raided rooms at the Pittsylvania hotel, occupied by John P. Ferrell and discovered six and one-half gallons of whiskey. Ferrell was placed under arrest and later bonded under the sum of \$500 for his appearance before the mayor on Saturday. The search was conducted by Sergeant H. T. Haraway and Patrolman John T. Clark.

Sergeant Haraway had received information that the liquor was there. When he and Officer Clark went to the rooms, they found Ferrell there. After searching the room, the officers started to open a trunk but found it locked. They asked Ferrell for the key but he told them he had none. Asked why he had no key to his trunk, he said to have replied that he could give no reason. Finally the officers decided on searching his clothing. They did so and found the key.

Upon opening the trunk a five gallon tin can and a fruit jar of liquor were found. Ferrell at that time denied the liquor belonged to him, but this denial was later made insignificant when he called a bondsman and is declared by officers told him over the telephone. "Well, they've caught me," Ferrell is also said to have told Sergeant Haraway that he wanted to do something for a living, and indicated that recent troubles had caused him much worry.

Says His Tribute To Dog Heightened Value Of The Flag

AUGUSTA, Me., June 7.—Governor Percival P. Baxter in a statement today, replying to criticisms of his having the State House flag lowered to half staff after the death of his favorite dog Garry last Friday said he yielded to no one in his reverence for "the flag."

"It may be," he said, "that the comments made upon my action will arouse our people to a new realization of their responsibilities to dumb animals. If this be so, one of my purposes will be accomplished."

He expressed belief his act heightened the significance of the flag "as an emblem of human achievement that has been made possible largely through the faithful services of dumb animals."

"It is my prayer," the Governor added, "that I always may be as unselfish and as loyal to my Master, State and Nation as was Garry to me."

Gilbert R. Chadbourn of Augusta, State humane agent, made the following statement: "I hope thinking people will applaud Governor Baxter for daring to defy tradition and honor the memory of his noble dog. Our flag is not wholly for the glorification of war but for the inspiration of loyal hearts of mankind. Governor Baxter has set thousands to thinking of brave animals and their services in war and in peace."

Mighty Healing Power of Peterson's Ointment

"I wish I could publish all the grateful letters I get every week," says Peterson. "I don't believe anyone on this earth has such happy times at work as I have. All I do is make Peterson's Ointment and read letters like these that come right from the heart."

"I had an ulcer on my ankle—had it 30 years and could not get it healed. For the last six years I had several doctors. I got one box of your ointment and it almost healed it and it was entirely healed before I had used the second one. I don't think there is a better remedy on earth." Mrs. J. C. Henderson, 520 Sprague street, Winstonsalem, N. C.

Peterson's Ointment is just as good for piles as it is for old sores. It cures itching of eczema almost instantly. There isn't anything in the way of pimples or face blemishes that it won't chase away, and for sore feet, chafing, sunburn, scalds, cuts and bruises there is nothing so sure or speedy.

JUST APPLY THIS PASTE AND THE HAIRS WILL VANISH

(Sonder's Secret.) The judicious use of a delicate paste insures any woman a clear, hairless skin. To prepare the paste, mix a little of the powdered delectable with some water, then apply to the objectionable hairs for two or three minutes. When the paste is removed, and the skin washed, every trace of hair will have vanished. No pain attends the use of the delicate and it will not mar the most sensitive skin, but to insure results, see that you get real delectable—adv.

Fire Escapes On Several Buildings Will Be Ordered

Fire Chief Mitchell, City Engineer R. K. Linville, Chief of Police Bell made another tour of inspection of property in this city yesterday with a view to making recommendations as to fire escapes. The city fire escape ordinance these officials constitute a committee charged with making from time to time such inspections and are empowered to serve notice on the owners of property that safety precautions must be taken.

One of the places visited yesterday was the Masonic Temple, but, according to Chief Bell who was questioned this morning, no definite conclusions were reached. It was indicated that the authorities will not take the fire escape question into consideration until the question recently taken by the State authorities. Chief Mitchell, however, is already on record as favoring the erection of outside fire-escapes.

The committee yesterday visited several places and made notes on them. It was decided to recommend a fire escape from the top floor of the new wing of the high school on Grove street. The committee found that Westmoreland colored school is highly dangerous and recommended, if the school be used another session that the two fire escapes be placed on it.

The trustees of the Second Baptist church have been informed that two additional doors should be cut on the southwest side so as to provide additional means of leaving that building in the event of an emergency.

T. T. Adams, who is converting a Main street home into an apartment, has also been notified that he must place one outside fire escape on this building.

A visit to Jefferson Hall revealed certain shortcomings on the top floor and it was decided to require H. M. Jefferson to provide a fire escape should the use of the top floor as an assembly hall be continued.

A hall which has been built by a colored organization known as the Samaritans on Washington street, was among the places visited and the proprietors will be required to build a fire escape. The tobacco factory of J. M. Edmunds was gone over yesterday, and while this building has a fire escape, the committee reached the conclusion that it did not meet the requirements of the ordinance and improvement to it will be required.

The colored Presbyterian church on Holbrook street was considered as unsafe from the fire standpoint by the three city officials and a fire escape reaching the second story has been ordered.

The committee previously had visited the two-girl colleges and found that adequate provision has been made in them for emergency exits. The Danville Military Institute does not come within the province of the local committee.

The owners of several buildings have been instructed that the fire escapes must be repainted and many have already complied.

LITTLE GIRL WOUNDED IN FACE WITH AIR RIFLE BULLET

WINCHESTER, June 7.—Police were searching today for Lee Garber, 11-year-old son of C. E. Garber, who is alleged to have shot Esther Zuckerman, the daughter of Louis Zuckerman, in the face with a 22-caliber air rifle while playing with children near their home. The wound was not regarded as dangerous, doctors said. Police found two rifles, one of which the shooting was done. The boy, fearing punishment at home, remained away until midnight, then crept in and went to bed, but rose the following morning before dawn and fled. Garber's father called at police headquarters and expressed his indignation that the law did not forbid the sale of even small firearms to children. He intended to ask the City Council to enact a law forbidding anyone, child, who has the price, he said, could buy all the weapons he desired without question.

—Mrs. S. L. Old and Miss Martha Bass of Halifax county, automobile victims who have been in Edmonds Hospital for several days with cranial injuries, continue to show material improvement.

MAN'S LEG IS BROKEN DURING PULLING OF TOOTH

POTTSTOWN, Pa., June 7.—As Maurice Bryan, aged 42, of this city, arose today from a dentist's chair after having had a molar extracted he groaned, "My leg is broken," and collapsed on the floor.

Both bones of the right leg had snapped between the ankle and the knee. A doctor at the Homeopathic Hospital here thinks the bones were broken by muscular contraction.

MIGHTIEST LIGHTNING FLASH IS UNLOOSED IN LABORATORY

PITTSFIELD, Mass., June 6.—A man-made flash of lightning, releasing for the fraction of a second a force greater than the total electric power used by the entire country, was made to erupt in a smashing crash in the huge steel-walled laboratory of the General Electric company here this afternoon.

The flash represented 2,000,000 volts, which is twice the voltage ever before produced in any experiment with artificial lightning. In it there was concentrated for an extremely brief period more than 10,000,000 horsepower.

The fury of this force, controlled and directed at the whim of a tiny electrician whose hand rested on a small switch, was returned on a miniature village, which had been constructed on the laboratory floor. Heavy blocks of wood were splintered.

A realistic and breath-taking electrical storm was manufactured before the eyes of a score of newspaper men and engineers. In some tests even rain was produced.

Behind these startling experiments, in which promises to revolutionize the world of engineering to improve high-voltage transmission lines and to study the action and effects of lightning in the hope of nullifying its destructive power.

Out of the tests, however, has come a startling mental by-product, opening a fascinating field for future experimentation. As yet it can be no more than conjecture. It has been discovered that when the artificial lightning strikes a block of wood, part of the wood disappears and cannot be accounted for.

A small hole is found bored through a block of wood. The wood gives off a peculiar, pungent odor. That portion of the wood which has disappeared may have been transformed into another element, perhaps a gas.

On this subject the engineers here show the influence of electricity, which has no conclusive proofs before them. Like Charles P. Steinmetz, the Schenectady wizard, they are wondering seriously whether tungsten, struck by lightning, can be transformed into a brilliant gas, or whether the tungsten in this direction will be worth while.

On this phase of the tests, Giuseppe Facelli, chief electrical engineer of the Pittsfield works, chatted diffidently with newspaper men. Life Prof. Steinmetz, he is a cripple. His journeys through the maze of complicated equipment in the plant are made in the wheelchair.

"Nature stores up energy for untold ages," he remarked. "Changes take place and we dig into the earth and get coal. Perhaps this long process can be shortened. Who knows? Perhaps we can apply a tremendous force for a short period and get out about 2,000 one thousand times. Cracking light sputtered from wires stretched across the room.

This corona grew more vivid as the voltage increased, buzzing like a band-saw ripping through a huge log. A blinding spark leaped with a crash over during a rain storm, which came from a huge shower, a blinding spark leaped to within ten feet of the spectators.

In Flanders

Rev. John B. Frison of Brownsville, Tex., has gone to Europe as representative of the National Catholic Welfare Council to consecrate the graves of 12,000 Catholic Yanks who sleep in Flanders Fields. Frison, a K. of C. chaplain during the war, will be assisted by English, Belgian and French committees.

Follies Girl and Swain To Foil N. Y. Law

NEW YORK, June 7.—Jessica Brown, former Follies girl and the Earl of Northesk, an ardent English swain, tonight announced that they plan a marriage outside the jurisdiction of New York State soon. New Jersey or Connecticut were chosen as more likely places for the ceremony, thwarted by the provisions of the New York laws governing the marriage of ambitious divorcees.

Throughout the day the Earl was besieged by callers offering advice as to the place to hold the ceremony. The romance began when Jessica was starring in the exclusive Grafton Galleries cabaret at the British capital in 1922.

When the gallant Northesk gazed upon her bewitching eyes and fluffy mass of blonde hair and her varied charms of feature and figure, he promptly succumbed.

There followed a swift and energetic courtship.

The family did not rise up to pronounce this attachment blessed. Countess Northesk, announced that there was nothing whatever in the rumor that Miss Brown a Chicago divorcee, was to become the Countess of Northesk. His uncle, Col Douglas Carnegie, went a bit further and even announced that everything possible would be done to prevent a union.

But young Northesk defied the family. David Ludovic George Houyetoun Carmelle, Earl of Northesk, of England, and Lord Rose Hill and Eglismalville, or Scotland, which is his complete name when it is all written down, explained to the London press chaps:

"Dash it all I love Jessica, and I shall do as I jolly well please in this matter. The announcement of our engagement will be made shortly and it will be official and final, in spite of everybody's objections."

Jessica had nothing to say. Then Miss Brown visited Monte Carlo and the Riviera. At Monte Carlo she had a serious attack of appendicitis. Local physicians there had given up hope of her recovery when Northesk arrived on the scene.

She rushed to Paris where she was rushed to the Hotel de Ville where she was rushed to the Hotel de Ville where she was rushed to the Hotel de Ville.

When Miss Brown arrived in America this spring, she said the engagement had not yet been announced and that she was waiting the approval of her mother, since she had "made a mess of her first marriage."

MAN'S LEG IS BROKEN DURING PULLING OF TOOTH

POTTSTOWN, Pa., June 7.—As Maurice Bryan, aged 42, of this city, arose today from a dentist's chair after having had a molar extracted he groaned, "My leg is broken," and collapsed on the floor.

Both bones of the right leg had snapped between the ankle and the knee. A doctor at the Homeopathic Hospital here thinks the bones were broken by muscular contraction.

Births Decreased, Deaths Increased In U. S. in 1922

Bad Rum Ruined Wheelock's Mind, Lawyer Asserts

NEW YORK, June 7.—In floundering, low-necked, silk morning attire, making a striking contrast to her Titian hair, and at intervals raising a non-a-cle to her eye, Mrs. Julia A. Wheelock, of No. 33 Park Avenue, widow of George A. Wheelock, President of the Metropolitan Turf Association, attended yesterday the opening of the contest of her husband's will before Surrogate O'Brien and a jury.

The monotonous was called into excited service during heated argument by Mirabeau L. Towns, attorney for Mrs. Mary Elizabeth Griffith of Granite City, Ill., a sister of Wheelock, who is contesting the will, which left Mrs. Wheelock all the \$500,000 estate.

Charles R. O'Connor of No. 38 Park Row, counsel for Mrs. Wheelock, said Wheelock first met his future wife at the Idle Hour in Saratoga Springs in 1912.

Mr. Towns said the couple met long before. Admitting Wheelock took his future wife to the Towns home, he said that to the time Wheelock "had been traveling all over the world with her while she was still the wife of Ralph Thompson."

The contested will is dated January 22, 1922. Reference to the record of the petition of Mrs. Wheelock in Supreme Court, as a result of which Wheelock was declared mentally incompetent, Aug. 3, last, indicated the contestations will use Mrs. Wheelock's assertions in an affidavit to prove their contention that Wheelock was mentally incompetent.

In that petition, filed March 22, 1922, Mrs. Wheelock asserted her husband was mentally incompetent. Only three months elapsed between the signing of the will and the application for a commission in lunacy.

Attorney O'Connor, formerly State Probation Director, declared Wheelock's mind weakened after a friend gave him some bad whiskey.

Mrs. Griffith, who reared her brother, is and is now an aged woman, was not present.

The hearing will be resumed today.

TAKES WOLF HE CAUGHT TO ZOO UNDER HIS ARM

TORONTO, June 7.—Carrying a live 65 pound female timber wolf under his arm, "Big Joe" Laflamme of Gogama, Ontario, walked nonchalantly into the local zoo yesterday and delivered the animal to the keepers. He explained to inquirers that last winter he found the body of a deer partly eaten, and had set a trap in the carcass.

"When I returned," he said, "I found the door and my trap were missing. I followed the trail in the snow. That wolf had dragged half the deer for half a mile, until the trap was pulled away from it. Finally the animal became tangled in the brush. I threw some harness on her, took off the trap and soon had her pulling in my dog team."

But Laflamme helped me from the start and now I haven't a rheumatic pain or an ailment of any kind. I eat and sleep like a child, and while I am 63, I don't feel a bit over 40. Nothing is too good to say for Tanlac. Tanlac is for sale in all good druggists. Accept no substitute. Over 37 million bottles sold.

North Carolina Has Highest Birth Rate With State of Washington Lowest

(By The Associated Press) WASHINGTON, June 7.—A decline in the birth rate and an increase in the death rate of 1922 was shown in Census Bureau figures for the year announced today. For the 24 States reporting birth figures the rate for 1922 was 27.7 for each 1,000 of population, against a rate of 24.4 for 1921. For 33 States the death rate last year was 11.9 against 11.6 for 1921. North Carolina reported the highest birth rate 30.2, while a rate of 18 for the State of Washington was the lowest. Death rates in the 33 States ranged 14.7 for Maine to 8.1 for Idaho.

Penbrook Resident Tells About Her Remarkable Recovery

Mrs. Annie Page, highly esteemed resident of 3233 Main street, Penbrook, Pa., is another who is enjoying splendid health as a result of the Tanlac treatment.

"What Tanlac has done for me," said Mrs. Page, "is too wonderful for words to express. For six or seven years I had been troubled with rheumatism in my arms. I couldn't even wash the dishes, or peel the potatoes, and in fact, my arms were just about useless."

"My health was also bad otherwise. My stomach was all out of order. I couldn't get a good night's sleep and often had dizzy headaches. I had just about given up hope of ever getting well."

But Tanlac helped me from the start and now I haven't a rheumatic pain or an ailment of any kind. I eat and sleep like a child, and while I am 63, I don't feel a bit over 40. Nothing is too good to say for Tanlac. Tanlac is for sale in all good druggists. Accept no substitute. Over 37 million bottles sold.

Body of Negro Riddled With Bullets Found

Suspected Slayer of Staunton Policeman Is Found Hanging in Tree, Victim of Mob.

(By The Associated Press)
PALM BEACH, Fla., June 7.—The body of Henry Simmons, negro, riddled with bullets, was found hanging from a tree on Palm Beach island today. The negro was suspected of having killed Policeman J. A. Smith, a native of Staunton, Va., Sunday morning. The negro was a native of the Bahamas. The body was found by a delivery man for an ice company where Simmons had been employed. A coroner's jury returned a verdict that the negro came to his death at the hands of unknown parties. The body of Officer Smith will be shipped to his home for burial.

Mr. and Mrs. Jno. T. Shields announce the engagement of their daughter, Louise, to Mr. William Carter Foxworth, N. C., the marriage to take place at an early date.

Women Tell Each Other How They Have Been Helped by Lydia E. Pinkham's Vegetable Compound

Perryburg, Ohio.—"I took Lydia E. Pinkham's Vegetable Compound because I suffered with pains in my ribs all the time. I can't remember just how long I suffered, but it was for some time. One day I was talking with a lady friend on a car, and I told her how I was feeling and she said I had better try Lydia E. Pinkham's Vegetable Compound."

In nearly every neighborhood in every town and city in this country there are women who have been helped by Lydia E. Pinkham's Vegetable Compound in the treatment of ailments peculiar to their sex, and they take pleasure in passing the good word along to other women. Therefore, if you are troubled in this way, why not give Lydia E. Pinkham's Vegetable Compound a fair trial.

Choir Boys Can't Yell When Playing But Then They're All Called 'Mister'

BY JOSEPHINE VAN DE GRIFT

(Special to The Bee.)

NEW YORK, June 7.—The chief penalty of being a choir boy is this: He must smother playful shouts and yells, even in baseball and football, and never raise his voice above a nice conversational pitch.

But to offset such sad rules, there is this joy: Everyone of these boys in knee pants is called Mister!

Seventy such boys have been turned into young cherubs by Father William J. Finn, director of the famous Paulist Choristers. They are models of deportment, scholarly in school, they actually like to practise their music lessons, and they simply hate jazz.

"And they aren't exceptional ur-chins either," says Father Finn who has gathered these boys from Washington to Toronto and from Maine to California.

The first solo boy in the choir this year is Jack Huber whose home is in California.

"We had been on a tour," says Father Finn. "As we were leaving Los Angeles a woman came to the train to say she had a boy she would like to see in the choir. This was Tom Huber. In a couple of years he was a soloist. Then his mother wrote she had another boy. This was Jack and now Jack is soloist."

Why do these 70 regard "making the choir" as the greatest glory of their lives when the average small boy groans and whines and dodges at the very mention of scales?

"It is because they see the respect with which music is regarded by the world about them," says Father Finn. "The daily music lesson is as important if not more so than the daily history or geometry lesson. And then, whether it be Bach or Palestrina or Porgy and Bess, it is to be learned by heart."

WILSON GIVEN SERENADE BY S. C. SHRINERS

WASHINGTON, June 6.—Woodrow Wilson was serenaded at his 34 street home today by a Shriners patrol from Greenville, S. C., which sang "Dixie" under his window and then, at his request, followed it with "The Star Spangled Banner." When the singing was over, the former President smiled and waved his acknowledgment, and one member of the patrol shouted "We're 100 per cent. for you in South Carolina." He then led his brother Shriners in "three cheers for Wilson."

Harry Diamond Found Guilty of Murder of Wife

(By The Associated Press)
VALPARAISO, Ind., June 6.—Harry Diamond tonight was found guilty of the murder of his wife, Mrs. Nellie Diamond, and sentenced to death by Judge Hannibal Loring immediately passed sentence.

Diamond was charged with having shot and killed his wife while on an automobile trip from Gary to East Chicago. The state contended the defendant's desire to obtain his wife's money motivated the slaying. Mrs. Diamond, who was several years her husband's senior, was reported to be wealthy.

Diamond, in his testimony and in statements to the police, declared that William Armstrong, negro chauffeur killed Mrs. Diamond and that he shot the negro in self-defense.

The state introduced as evidence the statements made by Mrs. Diamond before her death, in which she charged her husband with the slaying. She declared, according to testimony, that Diamond shot her and Armstrong, and then beat her over the head with the gun.

Mrs. Diamond was said to have had a check for \$17,000 and jewels valued at about \$35,000 in her possession when the shooting occurred. The valuable disappeared and state attorneys contended it was Diamond's desire to gain possession of the valuables, which caused him to kill his wife.

Diamond broke down when the verdict was read and had to be carried from the room. His aged mother, who has attended all the court sessions at his side, became hysterical and had to be forcibly separated from her son.

TO GET ROTARY CHARTER.
ROCKY MOUNT, N. C., June 6.—Rocky Mount will be issued its Rotary charter Friday night, R. B. Davis, president of the club has announced. Fourteen other clubs in northern North Carolina have been invited to attend the ceremonies. The club here has sixteen representative business and professional men as members.

DEROODE GETS EIGHT YEARS IN PRISON
(By The Associated Press)
BALTIMORE, Md., June 6.—Louis R. DeRoode, convicted recently of obtaining \$52,000 from local investment houses by false representations, today was sentenced to eight years imprisonment in the state penitentiary. He pleaded insanity at his trial. His motion for a new trial was withdrawn.

DeRoode who served with distinction in the world war as a captain of United States Marines and was wounded, was arrested in a fashionable Riverside Drive apartment house in New York disguised as an old man. He resigned from the Marine Corps several years ago to engage in private business.

J. C. Davis, agent of the D. & W. at Cascade, who was operated on for appendicitis at Martinsville last week is getting on nicely.

Washington Lad Is Most Wounded Soldier Of War

NEW YORK, June 7.—Did the fates decide years ago that a Washington boy should travel through the shadows of death in the World War and then come back home and live at his experience? asks Llewellyn Stephen F. Tillman in a recent issue of the United States Army Recruiting News.

Wallace Hillman Smith of Washington, D. C., is virtually "back from the dead," after experiencing a close call from death on the battlefield of Chateau-Thierry. Of all soldiers on the allied side during the war none of them received more wounds than the Washington boy, says the Lieutenant. While serving as a bugler and liaison runner of Company I, Ninth United States Infantry, he was wounded 133 times, in line of duty, and he blames a second lieutenant for it all.

"Suppose we start from the inception of Smith's military service," says Lieutenant Tillman. "and briefly sketch his career as a gallant defender of Old Glory." When the District of Columbia National Guard were called into Federal service on June 19, 1916, they made camp on the outskirts of the Fort Myer military reservation in Virginia, about three miles from the White House. The bivouac of the Guardsmen was named Camp Ordway. After the Third District of Columbia Infantry had been in camp for a month or so, a young soldier, haired youth came out to camp one day and enlisted with Company C of that regiment as second bugler; he before that time had been a bugler with the Boy Scouts.

"When the Third left Fort Myer for Fort Sam Houston, Texas, Smith accompanied with the rest, at Rosslyn, Va. After the Third Infantry returned to Washington in March, 1917, from the Mexican Border the officers and enlisted men went on leave until April 1, when they were again called in for federal service for the World War. However, when the regiment went to Camp Greene, North Carolina, it was split and assigned to three other regiments, the 61st, 162d and 163d Infantry regiments.

As a Dispatch Bearer.
"When Smith arrived overseas, he was assigned to Company I of the 9th United States Infantry of the Second Division for duty as a bugler and dispatch bearer. By a streak of fate Smith was the last member of the old Third District of Columbia drum corps to see Frederick Fagan the only man in the drum corps to be killed in action.

"The day Smith was wounded so severely, he had an altercation with a Second Lieutenant, who was in charge of a detachment of replacements for the front line trenches. Smith had gone to one of the rest camps after the completion of the placements. There was a certain route to use in bringing up the fresh men, and he had been over the 'trail' so many times that he pretty near had gotten to know the 'trail' by an instinct of feeling, as the men were always brought up after dark. On this particular evening the officer in charge told the runner that he would argue with him, but it was useless. The 'loosey' was determined to lead the men, and so finally Smith was forced to give in to a superior officer. The march began. In the detachment there were 33 men and one officer. Little did the men think that before another day should pass 22 of them would be on their way 'West.' As the distance seemed rather longer than usual, Smith intimated to the

officer that they were lost. Oh! no! The officer knew what he was doing. However, after walking half the night he decided that he as lost and was forced to take counsel with Smith. The latter then figured out their position. He remembered passing one of their own sentries, way back and only once. His worst fear was that the German trenches were in front of them and their own lines in the rear. But they could only guess their position, as it was darker than ebony. They composed themselves for the night determined to get as much rest as possible, for with the coming of the day, they would be able to tell their position.

Dawn Shows Predicament.
"Finally dawn came. Then the men quickly ascertained their position and realized that their fears were a reality. Their own trenches were behind them and the Jerry's strongholds about a quarter of a mile directly in front of them. Hell broke loose for fear! One of the first to get shot was Smith, a machine gun bullet caught him in the leg and he went down. Then the sharpshooters began a regular tattoo on his back. Smith and one other man were the only two left alive.

"While he was lying out in 'No Man's Land' calling for water, a form suddenly loomed up before the dimmed eyes of the American soldier. Thinking it was one of his buddies, he repeated his moan for water. When the man muttered in the hated German tongue, Smith knew the worst. It was a Jerry dressed in the uniform of an American soldier. Instead of giving Smith a drink of water, the German plunged with his bayonet and penetrated Smith's left lung. He then gave the fallen soldier a few playful jabs in the back with the 'old' thinking. Thinking Smith dead, the German started after other prey, stalking like the Indians of old. Later Smith was rescued by members of his own comrades.

"He was first treated at the front line trenches, then removed to Field hospital No. 23, from this hospital he went to hospital No 27. Later he was transferred to the Paris hospital, then base hospital 8 and 11. Finally coming back to the States he was transferred to Camp Meade, Md., where he received his discharge. April 7, 1920, on an S. C. D. Notwithstanding the fact that he has only one good lung, and has one of his legs in a brace, Smith is considered one of the best dancers of Washington."

Mrs. J. Cote Withers of Lakeland, Fla., is spending a few days with friends in Danville.

BEST MEDICINE FOR DYSPEPSIA
Six Thousand Bottles Sold In One New Jersey Town Last Year.

Every Druggist Declares Money Back if One Bottle Doesn't Make Any Stomach Sufferer Happy.

At last the way has been found to combine Pepsin with other corrective stomach agents so that it will do the most good in the shortest possible time.

One despondent of this splendid liquid remedy will cause acute indigestion, gas, heaviness, acidity, belching, heartburn or any upset condition of the stomach to vanish in a few minutes.

But there is more to say about this remarkable remedy—something that will interest thousands of despondent people.

Dare's Mentha Pepsin not only quickly relieves acute stomach distress, but it conquers stubborn indigestion and puts an end to dizziness, nervousness, headache, sleeplessness and despondency which are nearly always caused by chronic disturbances.

Dare's Mentha Pepsin is pleasant to take, has a deliciously refreshing taste and after it has put your stomach in a clean and healthy condition, just notice how much better you look and feel for besides correcting stomach disorders this supremely good remedy that druggists everywhere guarantee, is a fine tonic that builds you up and makes you work with vim, eat with relish and sleep soundly.

EXERCISES FOR CONFEDERATES

(By The Associated Press)

WINCHESTER, Va., June 6.—Memorial exercises were held today for more than 3,000 Confederate dead who are buried in Stonewall Military Cemetery and whose graves mark the final resting places of the sons of every southern state. Members of the American Legion, United Daughters of the Confederacy, state militiamen, veterans of the Gray, Stonewall Memorial Association, high school cadets and the representatives of various other organizations participated in the exercises. Hundreds of people from this and adjoining communities in Virginia, West Virginia and Maryland, witnessed the ceremonies, which were held at the base of the White Marble shaft erected nearly 50 years ago "to the memory of the unknown and unrecorded dead."

The Rev. Boyd V. Switzer, local Methodist minister, was the principal speaker. The graves of the men who wore the gray were bedecked with flowers and the Confederate colors, while all the state monuments in the cemetery were decorated with the state and Confederate flags.

It was the 57th anniversary of the day as a local holiday.

NEW OFFICERS TAKE CHARGE.
SALISBURY, N. C., June 6.—C. Henderlite and his board of aldermen now head the city government of Salisbury, W. B. Strachan and his board members having given over the reins of control to the newly elected officials Monday. Standing committees have been named and the new administration is now actively at work.

Dry, Dull Hair Made Glossy and Beautiful By Olive Oil Shampoo

Tens of thousands of women now have beautiful hair that was once dry, dull, brittle. They have learned what all hair experts know; that olive oil must be used in the shampoo to leave hair soft and gleaming. You can prove this on your own hair. For you can use a delightful olive oil shampoo cheaply at home. Get a bottle of PALMOLIVE SHAMPOO at any drug or department store. Follow the simple directions. You will be more surprised than anyone at the rapid improvement in your hair. For this gentle shampoo brings the loveliest softness and sheen to your hair.

World Going Crazy, Says Asylum Head

Nobody Works or Plays or Does Anything Normally These Days — Insanity Figures Grow.

MONTREAL, June 6.—In another quarter of a century or so nearly the whole civilized world will have become or be in the way of becoming insane if nothing is done to stop the rapid increase in mental derangement in the opinion of Dr. A. H. Desloges, director of asylums of the Department of Public Health of the province of Quebec.

The last year, the doctor stated, has been a record one in the number of cases of insanity treated, not only for the province of Quebec, but throughout the whole world. The reason he believed, in common with alienists, to be the extraordinary intensity and excitement of life today.

"Nobody works or plays or does anything normal these days," the doctor said. "When we work, we work the mad. When we play, we do it with all the intensity of a crazy end."

Then there is the general and economic shock of the war, which has had its effect everywhere and which has largely given rise to this condition of things. It has left a tendency to lose all sense of balance and proportion in work and pleasure.

"This is increasingly disorganizing the nervous system of the individual members of society to the extent that insanity is becoming one of the social evils which have to be dealt with by energetic measures."

"The figures of insanity are steadily increasing, and the indications are that unless something is done to stop it they will continue to increase at an alarming rate."

"What should we do to remedy it? We must get back to quiet family life. At present we are having nothing but the life of clubs, of hotels, of dance halls, of safes, never having any family life anymore."

"Then the government must get busy trying to help reduce the cost of living and labor unions and other bodies must join in the effort so as to make the lives of the people tolerable and give them a fair chance of making both ends meet."

The man who struggles vainly against adverse circumstances in the unsuccessful effort to make both ends meet very often gives way to mental derangement at the finish, and the intensity of the struggle for existence is the cause of his trouble. But we must get back to a simpler, quieter life."

ROANOKE CHIEF NABS FIFTY DURING MAY

(By The Associated Press.)
ROANOKE, Va., June 6.—The local force of federal prohibition officers under Chief J. C. Brown played havoc with liquor running into Roanoke during the past month and captured fifty violators and seized or destroyed property valued at \$13,285.

Two women were included in the number of violators captured. Included in the property seized during the month were five automobiles, thirty-two stills, 763 gallons of whiskey, 32,250 gallons of beer and a pair of horses and mules.

During the first five months of the year the local force of officers have captured 191 violators and seized or destroyed property to the value of \$67,620.

FAREWELL BALL AT ANNAPOLIS BRILLIANT EVENT

(By The Associated Press.)
ANNAPOLIS, Md., June 6.—Attended by a multitude of relatives and friends of the midshipmen, the Naval Academy and society the "farewell ball" given in honor of the graduating class, was a brilliant event and marked a semi-climax to commencement week festivities at the naval school. Tomorrow morning graduation ceremonies will be held and the final event will be the exclusive first class cotillion.

The huge armory was resplendent with light and color tonight for the farewell ball and pursuant to the time honored custom members of the second class, soon to be seniors, were hosts.

Two or three thousand persons looked on from the balconies. The guests were received by Mrs. Wilson, wife of Rear Admiral Henry B. Wilson, superintendent of the Academy, assisted by Midshipman Benjamin W. Glass, of Alabama, class president.

GARCIA AND NOBLE GO 12 ROUNDS TO A DRAW
BALTIMORE, Md., June 6.—Bob Garcia, army featherweight champion, fought Tommy Noble, English featherweight champion, 12 rounds to a draw here tonight. The judges' decision was received unfavorably by many of the fans who thought Garcia had decisively taken a majority of the rounds.

A Cat Story

Alister Meyer generally travels with the milk steward of the S. S. President Harding. He boarded the S. S. President Polk by mistake in New York when he arrived in Bremen and returned to the Harding which was in dock. He is with Miss Marie Simpson, stewardess on the Harding.

Army Airplanes Rescue Mrs. Gadge

(By Chicago Tribune Service.)
NEW YORK, June 6.—Afternoon S. O. S. was flashed over hundreds of miles of Panama jungle by a detachment of a native runner more than seventy-five miles to the nearest telegraph station, three United States army airplanes penetrated the wilderness for 320 miles and rescued Mrs. Helen T. Gadge, wife of Professor Frederick M. Gadge of the University of Michigan, who shot off the index finger of her right hand by accidental discharge of her double-barreled gun. It was learned today upon arrival of the courier on the steamship Santa Louis of the Green Line.

Professor and Mrs. Gadge had left this country last February with the intention of remaining in the jungle for sixteen months in the study of reptiles. Mrs. Gadge is an authority on snakes, lizards and frogs. They had gone hundreds of miles and were near the border of Costa Rica when Mrs. Gadge administered first aid and despatched the runner to a little settlement named David, nearly eighty miles away, to telegraph a request for assistance to Dr. F. S. South, American minister to Panama City. Professor Gadge and his party then started out to follow the runner, reaching David in three days.

Meanwhile, Minister South forwarded the S. O. S. to France and the army aviation base, and a Martin bomber and two other planes were sent out to find the party. A record flight was made, the aviators returning with the Gadies, and Mrs. Gadge was placed in the Ancon Hospital at Balboa, Canal Zone. There attending surgeons declared that poisoning had set in and that the patient would have succumbed in another day had it not been for Mrs. Gadge's first aid.

Despite the accident, the Gadies brought home with them fourteen trunks of specimens of reptiles.

ISMET PASHA MEETS WITH JOS. C. GREW

(By The Associated Press.)
LAUSANNE, June 6.—According to Turkish sources Ismet Pasha, head of the Turkish delegation to the Near East conference has conferred with Joseph C. Grew, the American minister, concerning the American attitude toward the concessions granted by Turkey to Colby M. Chester and to inquire generally into the status of the Chester organization. The allies want the Turks to insert a clause in the peace treaty continuing all the pre-war concessions given by Turkey, even if all the formalities of these are not observed. This applies particularly to the French railroad concessions and inevitably brings the Chester contract into discussion because of its alleged conflict with the French concession.

The conference remains at a standstill with no signs of yielding by either side. The Ottoman debt is the next question to come up.

O. W. COLLINS APPOINTED

(By The Associated Press.)
WASHINGTON, June 6.—Appointment of Charles W. Collins, of Chicago as the third deputy comptroller of the currency, was announced today by Comptroller Davies. Mr. Collins has been serving as counsel for the budget bureau.

Virginia Shriners Making Good Showing at Washington Convention

WASHINGTON, June 6.—Virginia Shriners made an unusually good showing in the big parade held here yesterday. The temples from Virginia were in the line of march. Acca Temple, of Richmond was 29th in the line of march. Khedive, of Norfolk and Mazim, of Roanoke were among the last patrols to pass through the "Garden of Allah," in front of the White House.

The Virginia "Nobles" made a good showing in the line and received hearty applause as they passed along the line of thousands of spectators who packed every available inch of space from early morning until 1:30 p. m.

Some of the Virginians were evident in various parts of the city yesterday morning, where they took advantage of the opportunity to make sightseeing tours to the principal points of interest. Many of them were in their own cars, from which placards of the temple were displayed on the hood, along with the American flag and the Shrine colors.

The Virginians also participated in the parade on Pennsylvania Avenue last night, which was packed with a surging throng from the Treasury Building at 15th street to the Peace Monument at the foot of Capitol Hill. All traffic on the Avenue, with the exception of delivery cars, was diverted at 6 o'clock and the parade throng was turned over to the surging thousands, which marched the entire length of the Avenue until a late hour.

Groups were chanting and singing, as well as score of bands playing in groups. Many members formed themselves into groups to amuse the throng by various antics. One feature of the funmaking which attracted considerable attention, was the conversion of a Ford automobile into a jumping vehicle. The wheels had been so changed as to cause the machine to zigzag, causing a large ball to ring as it passed along the streets.

A delegation from Pennsylvania dressed one of their members as to represent an old time farmer with long, clean whiskers, overalls and boots. This "Noble" carried in his hand a roll of well worn United States greenback bills, around which he had tied a string with a padlock attached, this Shriners attracted such a gathering of spectators in front of the Willard Hotel that traffic was stopped entirely until he entered the hotel.

After the parade yesterday the Virginia Shriners were mixed with the throng which witnessed various exhibitions and concerts which were held in various parts of the city. Some of the most attractive exhibitions were the various events held on the Potomac River where the United States Coast Guard Service and the other branches of the government contributed to the entertainment of the visitors.

An official of the Southern Railway said today there were 18,000 outside automobiles registered at Shrine headquarters, and that 37,000 came by rail. The best estimate made here yesterday was that there were between 125,000 and 150,000 Shriners and visitors in the National Capitol today. Many Virginians are here who do not belong to the Shrine, but there is no way of estimating the number.

Fear Dye Industry Will be Wiped Out

Defeat of Chemical Foundation in Suit Would Be Fatal, Lawyer Says.

WILMINGTON, Del., June 6.—That the Chemical Foundation was to all intents and purposes a subsidiary of the Government, charged with carrying on important war-time work, and that former President Wilson, in appointing Francis P. Garvan, president of the foundation, Allen Property Custodian, did so "having in mind that Mr. Garvan would see that the Government's plan was carried out," were two main contentions advanced today by leader J. J. Kresel, chief of counsel for the defense, in his opening statement in the suit of the Government against the foundation in United States District Court.

Mr. Kresel argued the price paid by the foundation for its 4,500 patents, trade marks and copyrights was of little importance. "It was not essential to the Government, engaged in important war work, what it was paid for these patents. The money was the least consideration. It was the public use that was to be made of them," Mr. Kresel said.

He scored the testimony of Dr. Holgermann setting a valuation of \$117,000,000 on one group of the patents, stating that figure represented their value in Germany, but that they had no such value in this country.

Mr. Kresel pointed out that the actual value to Americans of many of the patents was insignificant due to lack of full knowledge regarding the patents. He said only about 10 per cent. of the patents have been used in this country.

He argued that loss of the case by the Chemical Foundation would mean that patents which have proved of vast value to American chemical and dye interests would revert to their former German owners.

"The growth of the dye industries in this country since the seizure of the patents broke the German dye monopoly," Mr. Kresel said that in 1919 there were only 4 or 5 dye plants in this country, compared with a self-sustaining dye industry today of about 180 plants. "If the government wins, these patents go back to Germany and the American dye interests are wiped out," he said.

The court will begin hearing witnesses for the plaintiff tomorrow.

Boehm Bill Is Finally Shelved

(By Chicago Tribune Service.)
SPRINGFIELD, Ill., June 6.—A lively debate in which some of the senators made personal vigorous attacks against each other was the preliminary to shelving the bill of Senator Boehm, (Democrat) which was designed to loosen the prohibition of the state if the federal government gives its approval. The vote against the bill was 37 to 10.

The bill was an amendment to the state act relative to prohibition passed June 27, 1921. The proposed amendment provided:

"Nothing in this act shall prohibit the manufacture, transportation, purchase, sale or possession of any intoxicating liquor by any person, firm, or corporation, when manufactured, transported, purchased, sold or possessed strictly in accordance with a permit issued by authority of the United States, provided such permit is at all times posted and otherwise kept as provided by law."

"All that will do is to nullify the national prohibition act," observed Senator Cuthbertson, (Republican), the father of the amendment argued that his bill would only grant citizens the rights which the federal government would grant.

"I suppose that the Democrats want us to help the mto make a campaign issue with which can go to the country," said Senator MacMurray, (Republican), "this prohibition has been enacted by the federal government. It is the duty of the state to stand up and aid the federal government."

"I suppose that the Democrats want us to help the mto make a campaign issue with which can go to the country," said Senator MacMurray, (Republican), "this prohibition has been enacted by the federal government. It is the duty of the state to stand up and aid the federal government."

SIX PERSONS KILLED IN LEIPZIG RIOTING

(By The Associated Press.)
LONDON, June 6.—Six persons were killed and 23 wounded at Leipzig this afternoon when a crowd of Socialists and trade unionists, holding a demonstration against the high cost of living, clashed with the police, says a dispatch to the Times from Berlin.

The demonstrators fired on the police, who replied with a volley. The crowd, driven from the police-plunged food shops.

Va. Crop Conditions During Past Week

RICHMOND, Va., June 6.—Unseasonably cool weather continued into the first part of the week, but a change to much warmer occurred Saturday, so that the latter part of the week, with considerable excess in temperature, has been more favorable for all growing crops. No rain of consequence has fallen except in the southwest, where showers have been adequate, with the result that crops in that section of the State have been more favorably affected. With warmer weather corn, wheat and oats have improved, although there is a poor stand of corn in many localities on account of unfavorable conditions in preceding weeks and

the depredations of cut worms. The dry weather has retarded transplanting of tobacco and this, with the scarcity of plants, leaves the larger part of the prepared acreage still unplanted to that crop. Transplanting sweet potatoes was retarded by the dry weather in most localities. The first cutting of hay has been secured under generally very favorable conditions. Pastures and meadows are short except in the southwest.

TO BUILD CHURCH

WINSTON-SALEM, N. C., June 6.—The First Baptist church of this city has decided to start immediately on a new church plant to cost approximately \$200,000. The construction has been delayed on account of materials, but a plan has been devised, it was stated, through which additional cost is expected to be averted.

THE OLD HOME TOWN

By Stanley

THE OBSTRUCTION MARSHAL OTEY WALKER FELL OVER, BACK OF HAROLD VAN ORMAN'S STORE, WAS IDENTIFIED AS THE MISSING RED WHEELBARROW OTEY HAS BEEN HUNTING FOR THE PAST TWO WEEKS

with jokers slipped in by blundering or crooked legislators—such as omissions of punctuation or words whose absence creates what we Americans call "loopholes."

There are cases on record in American court history where the unintentional omission even of a comma in a contract has cost the defendant thousands of dollars.

It is all very well to "enforce the law strictly," but there can be such a thing as common sense—even in court—administering a law according to its evident intent and meaning instead of by crafty haggling over technicalities.

There's an old saying that a Philadelphia lawyer can find a loophole in any American law. Lawyers, who make the laws, take care of that.

Scoop's Colyum

DRAKES BRANCH, June 7.—(Grapevine wireless.)—It is so easy to be mistaken or to misunderstand a chance remark that one should be very careful of conversation picked up at random. Many a slanderous utterance can be traced to something picked up accidentally, and oftentimes embarrassments follow from jangling along this line.

Mistranslations.—Here is a similar incident showing how easy it is to mistranslate an overheard remark:

Said Mrs. A, one of the overhearders: "They must have been to the zoo, because I heard her mention a trained deer."

Said Mrs. B: "No, no. They were talking about going away and she said to him, 'Find out about the train, dear.'"

Said Mrs. C: "I think you are both wrong. It seemed to me they were discussing music," she said, "A trained ear very distinctly."

A few minutes later the lady herself appeared and they told her of their disagreement.

"Well," she laughed, "that's certainly funny. You are poor guessers, all of you. The fact is, I'd been out to the country overnight and I was asking my husband if it rained here last evening."—Laughing Gas.

Danville Shriners are wiring home for money. As it looks like the big fight at Washington is about over, says Rawley Thompson.

The Y. M. C. B. C. might investigate the antics of the Postoffice clock. One side has gone out of commission and the other three sides are not keeping step at all. It may be four o'clock viewed from the Leeland Annex and 4:15 from the river view.

Fishing in the Dan River was never better, according to Sam Motley, who has invented a mailed fish to keep the eels from slipping back.

Oracles.—A pair of oracles fly low. And look for seeds; I see them like gay flowers there. Among the weeds.

The dandelion tops are white, And daisy buds are green; The treasure that the bright birds seek Lies low between.

Seed that the year has left behind Still clings to its frail stem; The oracles find daily bread Held up for them.

The oracles fold their black wings Upon their golden backs; There is no beauty for a bird The oracles lack.

He's fashioned like some jewel made By one who wrought, In burnished gold and ebony, A poet's thought.

He has a soft song in his throat, And when he flies A flower seems to drift between The fields and skies.

My meadow is a table spread, And many wandering things Come there for comfort and for rest On little feet and wings.

The cabbage butterflies that have Only one day to pass Drift by in white and yellow flocks And swing on the long grass.

And many singing bees are there, Plying their ancient art, For clover's growing red again With honey in her heart.

And in this place of pleasantness That meets so many needs, Linger a pair of oracles, Like flowers among the weeds. —Louise Driscoll.

Two Epitaphs.—Here lies two men, who we agree Have won the rug-glass bonnet, The first of them blew out the gas, The other stepped upon it.

Here lies an early riser, Whose never-ending squirm, He thought he was the early bird; Fact was, he was the worm.

"Who is the meanest man in the world?" The guy who proposes to an old maid over the telephone and after she accepts him, tells her he has the wrong number."

Signs in window of a Danville fish market: "If it swims, we have it." But it seems they were just out of bathing girls.

Unsung.—"You can't sing me," said the green bean to the cook as the twin fell off of the wrapping paper.

Society girls should remember they will soon be 25 years old and looking for a job.

When the family wash was hung on a Schoolfield clothes line the other day, says Junius, nearly a dozen Pullman towels fluttered in the breeze.

Bambo says when Mother takes in her laundry she should be known as the dead-head of 'n' house.

The fellow who goes around looking for trouble usually labors under the impression that he is in pursuit of happiness.

Dr. Shorter says if you will keep a stiff upper lip you will not run any chance of showing your false teeth.

"Did you notice her father's tongue?" "Notice it? I felt it!"

Going adds to a man's physical assets. It also increases his liabilities, thinks Al Starling.

Jay Walker says the difference between our last year's suit and our this

year's suit is merely a matter of time.

Germany is getting us canary birds much to the delight of American cats.

Here—Any man who lets other people lie for him.

Spanked.—They called it the wood-shed, Back in our boyhood years; But we'd always shed while there, instead, A quart of salty tears.

Think often of your friends; but talk about them rarely—and then only of their virtues.

A man is your friend, thinks Albert Hall, who knows your sins, he can keep a closed mouth.

No, Barney Google, a spark plug isn't always full of carbon.

The man who boasts that hardship made him what he is, is determined that his son shall have a much easier time.

"Ah, this will be confining employment," remarked the prisoner, as he entered his cell.

Any man who drinks liquor in Turkey gets thirty strokes of a whip. Over here he is liable to get just one stroke of paralysis.

CHICAGO BUREAU DECLARED ILLEG

(By Chicago Tribune Service.)

WASHINGTON, June 6.—The decision of the Supreme Court that the activities of the Armstrong Bureau of Chicago on behalf of manufacturers of linseed are illegal aroused considerable discussion today as to its possible effect on the anti-trust laws.

The opinion seems to be general that associations of manufacturers must discontinue the exchange of price information but it is assumed that they may gather information regarding production and consumption provided no improper use is made of it. The latest decision of the court, however, did not define exactly what the associations may do without being subjected to prosecution under the anti-trust laws.

Some government officials have repeatedly criticized the so-called "open price" associations which serve as a clearing house for price information and which according to the Department of Justice have virtually controlled prices.

FARMER FOUND GUILTY.—CHATTANOOGA, Tenn., June 6.—James Allison, prominent farmer, charged with killing Eugene Watkins, a neighbor, was found guilty of first degree murder in criminal court here today and sentenced to 25 years in the penitentiary. He immediately filed motion for a new trial.

"Is this you, Leslie?" "Yes, who is it speaking?" "It is I, Karl."

"Oh, hello Karl. I didn't recognize your voice."

Your mother wished to call you up and say that they are starting one day earlier and if it were possible, she would like you to come down tomorrow instead of the day after."

I think I can do that. Are you coming with them, Karl?" "Yes, I have some business that must be transacted within the next week or two and I thought I might as well do it at this time, particularly as Alice makes such an impor-

CITIZEN APPEALS FOR LIBRARY 8,194 IS SAMOAN POPULATION

PAGO PAGO, American Samoa, June 6.—The census of American Samoa, recently completed, is officially announced as 8,194.

Editors Register and Bee:—Gentlemen:—Having read your editorial in regard to the proposed public library to be erected on a corner of the grounds of the Memorial Mansion, the writer would like to state his opinion of this project. I feel that this is a rare opportunity for this city to obtain a most worthy institution, especially so when it comes from our own public spirited citizens. As a grandson of parents who fought for the cause that was so dear to us, I can in no way see where this will in any way take away from the honor to those who have gone, also those who survive, but to the contrary, I feel that it will add to this particular spot a charm that will last longer than some of the societies that now operate in the present site. A seat of education such as proposed will be a welcomed addition to our city, and if the societies which are so interested will take advantage of this opportunity they will find a field for their efforts greater than they will expect. The location mentioned is by far the most desirable one and in easy reach of all, also it being the property of the city of Danville, the writer can in no way see any reason why this most needed addition cannot go forward. I feel also that the givers in this case do so with the spirit to further advance the location in question and would readily accept any reasonable suggestion in architecture or name for this proposition. Sincerely trusting that more of our citizens will come forward with some expressions in behalf of this cause, assuring you that I am at your command in all efforts of this kind, and trusting that sentiment will not be unfair in this particular case.

I beg to remain, Respectfully, C. N. R.

Danville, Va., June 6, 1923.

N. Y. POLICE WILL ENFORCE VOLSTEAD LAW

(By The Associated Press.)

NEW YORK, June 6.—Police of New York City, as well as district attorneys have promised their full cooperation in aiding the federal authorities to enforce the Volstead law.

It was announced today, after a conference called to discuss methods of enforcement as a result of the repeal of the state Mullan-Gage law.

Corporation Counsel Nicholas said complete accord had been reached between United States Attorney Hayward and the police and prosecuting officials. He said he agreed that policemen who witness violations of the federal prohibition laws are to make arrests and turn their prisoners over to the federal authorities.

Police Commissioner Enright attended the conference and was said to have expressed approval of the results.

It was understood that the federal authorities will be given the right to search for and seize liquor in any place where it is stored, and that the federal authorities will be given the right to search for and seize liquor in any place where it is stored, and that the federal authorities will be given the right to search for and seize liquor in any place where it is stored.

It was understood that the federal authorities will be given the right to search for and seize liquor in any place where it is stored, and that the federal authorities will be given the right to search for and seize liquor in any place where it is stored, and that the federal authorities will be given the right to search for and seize liquor in any place where it is stored.

GIRL BANDIT IS BEING SOUGHT BY CHICAGO POLICE

(By The Associated Press.)

CHICAGO, June 6.—Search for the girl bandit who shot and killed Richard C. Teasler, insurance adjuster, while she and a male companion were robbing him and his wife last night, was being made by police, who tonight have one man they say is a suspect in the robbery.

Irving Schilling is being held on the suspicion by the police that he was with the woman who shot Teasler and that he knew the identity of the couple. A picture of a girl resembling in general the girl bandit, found in Schilling's possession, was identified by him as a girl he had not seen for several months and knew only as "June."

Schilling, according to police, has been arrested several times as a robbery suspect.

Search is being made also for Jessie Marie Morelock, forced to leave her room last night in the company of a chauffeur according to her sister, Mrs. Lillian Smith, who said she had not been seen since. Mrs. Teasler said a picture of Miss Morelock resembled the girl bandit.

State's Attorney Crowe, saying the crime was a cold-blooded one, ever committed by a man, declared the death penalty would be demanded if the woman is brought to trial.

—Mrs. Jno. Ronan and daughter Katherine, leave today for a visit to W. F. Rison, Rye, N. Y.

Flowing Gold

Calvin Gray arrives in Dallas and prepares to break financially the well-known Henry Nelson, who is his enemy. Gray becomes friends with the Briskow family, who own all wells. Allie Briskow, the daughter, loves Gray, but he is in love with Barbara, daughter of Tom Parker. Bud Briskow, son of Gus, runs away from school and ends up in the hands of an adventurer. Bud resents interference and he and Gray fight until Bud is knocked unconscious. Gray and an associate, Mallow, bring the son of Bud's lady friend to Bud's house.

NOW GO ON WITH STORY

"By Jove! She's splendid!" he chuckled. "Buddy, I-I like that woman."

It was mid-afternoon of the next day. Mrs. Fulton after a restless night was packing her trunks. She halted her labors for a second. She pulled a brief note that had arrived a few moments before and ran as follows:

DEAR MRS. FULTON—I am not really such a bad sort as you consider me, and I'm genuinely interested in that boy of yours. Let's very quiet and have a serious talk about him and—perhaps other things.

Sincerely yours, CALVIN GRAY.

She was thus engaged when there came a knock, and in answer to her voice the writer entered.

"Mrs. Fulton, I have learned that life is a mixed affair, and that most of our actions are the results of conflicting motives. Yes, and that we ourselves are products of conflicting forces, good and evil. Few of us are as good as we would like to have people believe we are, and as we are, we are not so good as we would like to believe we are. I wonder if you will believe me when I say that I—like you."

"Certainly not."

"Nevertheless, I do. For one thing, you are a good fighter and a good loser. I try to be, but I fear I lack your spirit. I would not have hurt you willingly."

The woman tossed her head and turned away when she spoke, it was weary: "I might have known I couldn't make the jump. I never did win a big race. A good loser, eh? Well, I've had enough practice at it. How is Buddy? Hurt, I suppose. His young life is blasted; he'll never trust another woman."

"He is standing it pretty well, and is greatly cheered by the fact that he can see out of his left eye practically as well as ever. He is going back to the old fields and learn the business. I am going to put him to work. What are you going to do with Benson?"

"Do with him? What can I do with him?"

"He is a bright boy."

"I'm right, too, but I have all I can do to get by."

"I'd like to help you make a man of him."

"What? You? How?"

"I'd like to put him in business and teach him that there is no profit in short-changing customers. I'd enjoy giving the boy a hand up, but he is more than I'd care to tackle alone."

"There's Mallow to help you. He'd be a real influence."

The mother's lip curled.

"How about you?"

"Me?"

"Isn't the sort of life you are living becoming a bit tiresome? Aren't you a bit fed up on uncertainties? The object of these queries, dear, is to see if you can't be of some use to me."

Jack tells me you are coming over to stay with him while I am gone. Don't lead him into bad company. Shall expect to find you here when I return, otherwise will conclude that you are purposely avoiding me.

LESLIE.

TOMORROW: Betty Stokley to Alice Hamilton—A younger sister's lament.

adjoining acreage at low price.

Following this unhappy experience, the scandal about the Jackson well became public—the Jackson Company having at last located the well in its plot line—and the whole Red River district enjoyed a great laugh.

Miss Parker, of course, was deeply chagrined at her connection with the fraud; nevertheless, the banker felt his flesh turn cold at the seriousness of his escape.

About this time a big sinner blew in north of the Louisiana fields, and wise old men began to talk about Arkansas and quietly to gather in acreage. Less than a week later one of Nelson's field men brought into the bank a youth who owned some property in the latter state. This youth was a sick man; he was thin and white; he had a racking cough, and he knew nothing about oil except from hearsay. All he knew was that he would

BEST SAND FOR CONCRETE SOUGHT

CHICAGO, June 6.—Now after a few of little glass bottles, filled with sand and carefully filed away in glass-covered cabinets is a part of the technical "library" at the Structural Materials Research Laboratory at Lewis Institute in Chicago. It is probably the only collection of its kind in existence, and the information contained on the labels of the bottles gives an interesting insight into the part that science is playing in modern industrial undertakings.

This "sand library" was started ten years ago, and specimens have been added from time to time until there are more than 2,500 different bottles of sand in the collection. The specimens come from every state in the union and from Canada, Cuba, Mexico and other foreign countries. Each sample has been carefully tested, and the results of the tests are kept in the files. They include the source of the specimen, the grading, silt content and the results of the colorimetric test for organic matter. In most instances mortar and concrete tests also have been made. The reasons for the tests were to ascertain the suitability of the various sands for concrete and mortar.

The experiments with the various sands were undertaken at the laboratory as a part of the work of ascertaining methods that will assist the concrete user in obtaining the best results from the use of the material.

BOSS GAVE HIM HEALTH TIP

New York Man Promptly Gets Rid of Stomach Trouble

"For years I suffered from heartburn and belching... rheumatism came within the last couple of years," relates John Maroney, 235 E. 125th St., New York City, in writing of Paw Paw Tonic. "I have gone to doctors and have bought patent medicines... but all to no use... My boss, Mr. Keenan, told me I should try Maroney's Remedies, telling me what they did for him. The result was so satisfactory I will continue them to a cure. Since I began using your Tonic one week ago, I have had no trouble with my stomach. It removes tired feeling, tones up the system, produces strong appetite and leaves no uncomfortable feeling after eating." Try Maroney's Paw Paw Tonic. \$1 a bottle at your druggist's. Maroney's, Scranton, Pa.

Sold in Danville by Frank L. McFall and all other up-to-date druggists.

Nursery Noises New Threaten The British Parliament

LONDON, June 7.—With the election to the British House of Commons of Mabel Russell, actress, Secretary, Pity and anxiety are now represented by women in that House. Lady Astor on account of her dry voice is dubbed Sobriety. Mrs. Wintlingham, the other woman M. P., is looked upon as the spokeswoman of Pity, and the latest recruit is a footlights favorite.

Her husband, Captain Philipson, was elected for Berwick. Lord Gray's old seat, as a Lloyd George Liberal, was unseated by the courts for corrupt practices on the part of his agent. His wife then came forward to succeed him. But she ran as a Conservative. This difference did not prevent her husband working for her return, just as his Liberalism had not stopped her working to secure his election.

Miss Russell introduced new methods into electioneering and in doing so has scandalized some of the old-fashioned politicians who dislike the frivolity associated with the variety stage in politics. Questioned about how she would look after children and her parliamentary duties at the same time she declared that if needs be she would take the children with her to the House of Commons.

British legislators are horrified at this revolutionary idea of establishing a day nursery in the House of Commons, and already are conjuring up visions of debates being carried on to the accompaniment of walls from irritable infants.

"I don't think it will be quite as bad as that," says Miss Russell, but it will do men good to have a little domesticity introduced into the House of Commons. It is too much of a man's house and legislation suffers on that account."

Pressed to say what she hoped to do when seated at Westminster Miss Russell said:

"There is hardly a political issue raised in which it is not desirable that the woman's point of view should be kept in the front. With only Lady Astor and Mrs. Wintlingham to speak for the six million women voters on this side it is clear that we are under-represented. Personally I don't admit for a moment that women have not as good political insight as men. In fact I think in many respects they are superior to men, and political life would be much better for the influence of women."

Russell does not believe in a woman's party, however.

"It is unwise," she says, "to have

MABEL RUSSELL, LATEST WOMAN MEMBER OF PARLIAMENT

class or sex divisions in politics. Men and women can work together and ought to work together. I shall work with the Conservative party just as Lady Astor does. We will work with the Liberal Mrs. Wintlingham only where we can further the interests of women by doing so."

Miss Russell relished the monotony of the ordinary political campaign by entertaining her audience to a little "variety" from time to time, and there is no doubt that the innovation was appreciated.

JAPAN'S NEED OF LAND MAY CAUSE A WAR

LONDON, June 6.—Unless some of the western nations are awakened to their mistaken attitude toward the eastern nations, the struggle between east and west will involve the whole of humanity in the most disastrous war time world has even seen.

These frank words were spoken by Professor Hisunhuma, a Japanese, at a recent dinner in London of the Japanese Society. The limited area of Japan, the professor explained, was a cause of great anxiety to her statesmen. With only 15 per cent. of her territory available for agriculture, and a population of 350 to the square mile, Japan looked with longing eyes to North and South America, Canada, Siberia and Australia where there is so much land available for development. She wants to send her surplus population to these empty acres.

JOHNSON GIVES NEGRO PROBLEM

(By The Associated Press)

HAMPTON, Va., June 6.—Speaking today at the commencement exercises at Hampton Institute, James Weldon Johnson, secretary of the Association for the Advancement of Colored People, declared the negro problem was an American problem involving two important questions for the negro group. These questions he said, were securing individual fitness and winning recognition for fitness in terms of American citizenship.

J. Henry Scattergood, of Philadelphia, a trustee of the institution, who has recently returned from the Paris Peace Conference, declared the French invasion as an economic failure and declared that Americans fail to realize the extent of their entanglement in European affairs. He said the court should be lifted out of politics and that the United States should accept Lord Robert Cecil's challenge to enter the League of Nations.

Americans must take part in helping Europe which is a terrible scene of growing chaos and dissolution, he asserted. The politicians have made a mess of things and Europe is going down hill. France is not getting what she expected from the Ruhr and the assets of the debtor, Germany, are growing less and less.

According to Dr. Scattergood, France must be made to feel the force of public opinion, based on enlightened truth and the people of the United States must think through their brains rather than through their feelings. At present there is through Europe east of the Rhine, except in Austria a crashing of civilizations and disintegrating processes. Peoples thinking must be changed from hate to helpfulness. The people of America are not secure, in spite of the idealism which really is in their hearts because the markets of the world are crumbling and standards of living are being lowered everywhere. Men must sweep hate out of their hearts and clear their brains of prejudice. They must also take an interest in international problems and build up an enlightened public opinion.

That the people of the United States are suffering from racial blindness and that they are failing to realize how much they are in European affairs through the great loans which are the greatest international transactions of his time, that the world court must be lifted out of politics; that "we must go on with the League of Nations without the strangulation and violence of the treaty of Versailles"—these principles were advanced by Dr. Scattergood.

AMUNDSEN IS PREPARED FOR PERILUS FLIGHT

(By The Associated Press)

BERGEN, Norway, June 6.—Rolf Amundsen, the famous Norwegian Arctic explorer, will attempt his hazardous air flight from Point Barrow in Alaska to Spitzbergen at the end of June, it is announced here. Between these two points he will traverse what has hitherto been the Arctic's "blind region," a territory of which nothing whatever is known. The greater part of this blind sector lies directly between Point Barrow and the North Pole.

Experts in polar work consider that one of the greatest of the difficulties Amundsen will have to contend with will be that of orientation—the determination of his latitude and longitude while under flight. Assuming that Amundsen starts from Point Barrow under ideal conditions, and in due course finds himself directly over the Pole, he will, according to astronomical theory, have south on all sides of him. It is of vital importance that he start his southward course along the right meridian for although in this direction he flies it will be south, the following of a wrong meridian may lead him along the icy wastes of the Greenland tableland or even across to Siberia.

Another danger, according to polar experts, is that he may find himself over the open sea between Greenland and Spitzbergen, which is some 350 miles at this point, and entirely out of the routes of any vessels employed in Arctic work. Spitzbergen is notorious for the thick fogs which suddenly and completely envelope it in the course of a few moments, and here again lies a danger.

The success or failure of the adventurous flight, polar navigators say, depends upon atmospheric conditions, and on these alone—engine failure, of course, expected.

Promoters Got Lesson From Criqui Fight

(By Chicago Tribune Service.)

NEW YORK, June 6.—The promoters \$50,000 loss on the Criqui-Kilbane afternoon show taught the New York boxing stage managers a thing or two. So as not to conflict with the baseball games and horse races on Saturday afternoon, June 16, Matchmaker Tom O'Rourke of the Polo grounds athletic club has changed the date of the world champion flyweight contest between Champion Jimmy Wilde and Pancho Villa to Monday evening, June 18.

So many ring champions have been dethroned of late that the passing of a title has ceased to be a surprise. Until recently champions were always favorites in the betting. But the theory that a champion can not lose has been considerably weakened of late. When Villa meets Wilde the little Filipino will be the choice in the betting, although he faces a man who probably was the greatest flyweight in history.

The fact that Wilde was knocked out in his last fight and that it is nearly two years since he entered ring causes bettors to favor the mid-gest from Manila.

Johnny Dundee may be the next veteran to fall by the wayside if Wilde pulls through against Villa. Dundee was none too strong when he met Jack Bernstein recently although he sealed 128-14 pounds that night. Making 128 for Criqui may take away much of his endurance.

Dundee, who lost the junior lightweight title to Bernstein, seems to have no luck with Hebrew boxers. Nearly all the men who have mastered this rugged little Italian have been members of the Jewish race. The greatest disaster of his career was his knockout at the hands of Willie Jackson. It was not for Benny Leonard, he would have been lightweight champion. Lew Tender was too much for him, and Eddie Wallace, a broken-down second rater, almost knocked him out. He both won and lost to Charley White, but the latter is one of two decisions ahead of him. Dundee's most brilliant effort against a Hebrew was his knockout of Danny Frush.

When Jack Appell, counter ten over Johnny Kilbane at the Polo grounds last Saturday it was the first time a referee had tolled the full count over him. In Kilbane's contest with Benny Leonard, at Philadelphia Johnny's seconds tossed in the towel as token of defeat, the only other time that Kilbane has had a knockout registered against him.

MAYOR CURLEY PRESENTS CUP TO GOLF CHAMPION

(By The Associated Press.)
BOSTON, June 6.—Mayor Curley today presented a silver cup to the city, enclosed in a black box, to Francis Outmet, former national open and amateur golf champion. The gift was in recognition of Outmet's play on the Walker cup team in England this spring.

COLLEGE BASEBALL

National League

CHICAGO 6; NEW YORK 1

(By The Associated Press.)
CHICAGO, June 6.—Chicago hit Neft, star left hander hard today, smashing out four doubles, all of which figured in the six to one victory over New York and evened up the series. Aldridge held the victors to three hits, one a home run by Snyder.

A thick fog off Lake Michigan, the first on record at the Cubs park at playing time, hung over the field and made it so dark at times it was impossible to see beyond the infield. Several times it was necessary for the umpires to confer as to whether the balls batted to the outfield had been caught.

Score by innings: R. H. E.
New York 0 0 0 0 1 0—1; 3; 2
Chicago 0 0 2 0 2 6—6; 12; 2
Blume, Neft and Snyder, Smith; Aldridge and O'Farrell.

CINCINNATI 6; BOSTON 1

(By The Associated Press.)

CINCINNATI, June 6.—Donohue outpitched McNamara today and the Reds won the second game of the series from the Braves, 6 to 1.

Score by innings: R. H. E.
Boston 1 0 0 0 0 0—1; 6; 2
Cincinnati 0 0 1 0 0 6—6; 11; 0
McNamara, Watson and O'Neil; Donohue and Wing.

ST. LOUIS 7; PHILA. 6

(By The Associated Press.)

ST. LOUIS, June 6.—Bottomley's triple and Myers' sacrifice gave St. Louis a 7 to 6 victory over Philadelphia today. The contest went 12 innings, reach team scoring twice in the tenth.

Score by innings: R. H. E.
St. Louis 0 0 0 1 0 0—7; 11; 0
Philadelphia 0 0 1 0 0 6—6; 15; 2
Glazier and Henline; Toney and McCurdy.

PITTSBURGH 7; BROOKLYN 3

(By The Associated Press.)

PITTSBURGH, June 6.—Pittsburgh made it two straight from Brooklyn by winning today's game, 7 to 3. Ruether weakened in the sixth inning when the Pirates' six runs across to his. Haveling's feat in this frame with a clean up double with the bases filled.

Score by innings: R. H. E.
Brooklyn 0 0 1 0 0 0—3; 8; 1
Pittsburgh 0 0 0 1 0 7—7; 12; 0
Ruether, G. Smith, Decatur and Taylor; Hamilton and Goch.

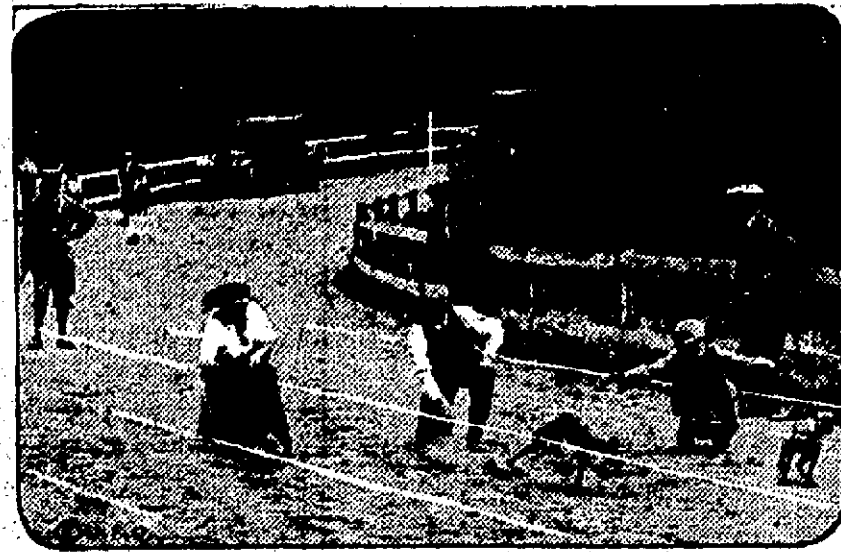

ENFORCE LAW AT HELENA

(By The Associated Press.)

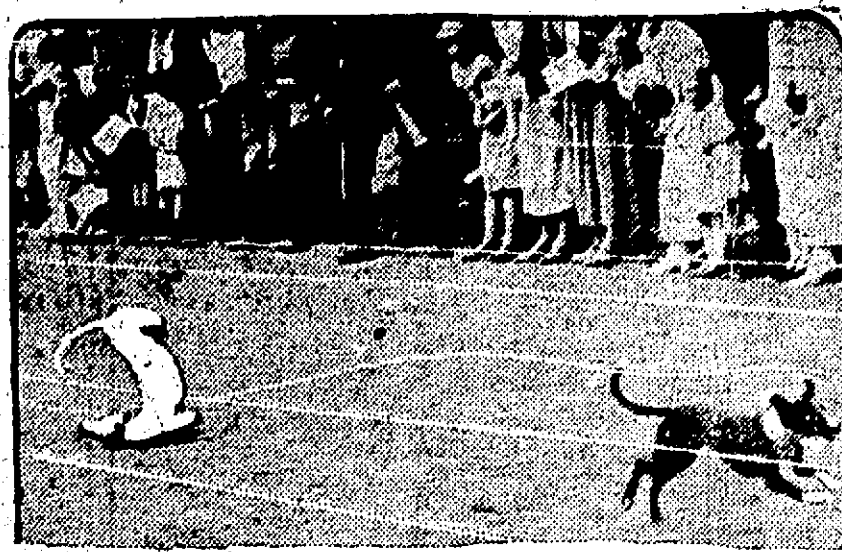

HELENA, Mont., June 6.—If the local authorities at Shelby continue to indicate that they are either unable or unwilling to enforce the law, they shall be no match for Dempsey and Gibbons there July 4, was the statement made in a telephone message from Attorney General L. D. Sankin to the authorities in Shelby today.

Reports of lawlessness at Shelby in connection with the activities preceding the heavyweight championship fight, set for July 4, prompted the attorney general to issue sharp instructions to Shelby authorities declaring that if the proposed fight is permitted to become a public nuisance, it will be stopped by the state.

THE START AND FINISH OF A WHIPPET RACE

At the left you see the start of a whippet race on the opening day of the Whippet Race Meet at Tuxedo Park, New York. On the right you see the finish of the race—for one dog. He hit the tape and it ripped.

JOCKEY DONAGHUE AGAIN RIDES TO VICTORY; WINS HISTORIC BRITISH DERBY

(By The Associated Press.)

EPSON DOWNS, June 6.—Jockey Steve Donoghue today won the third year in succession he rode to a victory in the greatest of all horse races—the Derby. This time the Irish leader of all British jockeys was mounted on Papyrus, the precious three-year-old possession of an Irish tenant farmer, whose name, curiously enough, is Barney Irish.

Papyrus, in racing over the horse shoe shaped turf of the Derby race and a half course ahead of eighteen other thoroughbreds lifted his owner, a man of rather small means, to a place of wealth and renown and gave to Donoghue the supreme position among jockeys of the world, and a record unsurpassed by any rider since man began the sport of horse racing.

By winning three derbies in a row Donoghue gains possession of the Gordon spurs which the Jockey Club long ago offered for this achievement. Papyrus was purchased by Irish as a yearling for a relatively small sum. Donoghue did not lead from start to finish; he got his horse ahead only after the quarter mile post had been passed. This gave Papyrus the inside track around the turn in the huge grassy horse shoe, but the Earl of Derby's Pharos raced right by his side around the bend and almost to the end. Fifty yards from the finish Papyrus hit a nobly to Donoghue's urging and stretched this mar-

gin to a full length as he flashed past the finish. The time was 2:23.38.

One length behind came Pharos; M. Gould's Parth was third, a half length behind Pharos and Dorice, owned by Anthonny De Rothschild, was fourth. The others were stretched out behind for a long distance. It was remarked that in what many consider a dangerous age safety first finished last.

In the century and a half since the derby came into being, no other man is ever won it three times successively. Papyrus was the fifth horse Donoghue has ridden to victory in this classic. He captured his first derby with Formery in 1915, and won again with Gay Crusader in 1917; Humorist in 1921 and Captain Cuttle in 1922.

Only two other jockeys of the hundreds who have ridden derbies have won that race five times. A hundred years ago Robinson did it and his feat remained unequalled until Fred Archer piloted five derby winners in the years between 1877 and 1888. But neither of them won three times successively; they won their spurs, but not the golden spurs.

Several hundred thousand spectators cheered the jockey, as he sitting on his steaming mount, led the procession back to the paddock. There, surrounded by men and women arrayed in all the glory of derby day, the owner received the purse, the jockey, a wealth of praise, and the horse the admiration of the multitude which his great victory merited.

Twins Take Both Games At Raleigh

WINSTON SALEM, N. C., June 6.

The Twins took both ends of a double header played here this afternoon the first being an 8 to 4 victory for the locals the second a 12 to 0 affair being just as wild and erratic as the score indicates—12 to 11. The second game was marked by the free use of pitchers each side using three. Winston with one run in the first defaulted in the next and star and star of a lively batting rally in the fifth when seven runners were brought in and three more in the sixth. The game was devoid of any sensation.

EMPOWERED TO MAKE ARRANGEMENTS FOR AMERICAN

NEW YORK, June 6.—Empowered to make full arrangements for the accommodations in or near Paris for the American athletes who will take part in the Olympic games in the French capital next year, Colonel Robert M. Thompson, president of the American Olympic Association, will sail for France tomorrow on the French liner Paris.

It was revealed following a conference of members of the executive committee of the A. O. A. at the University Club last night, which was preceded by a dinner at which Colonel Thompson was host, that the entire U. S. lines steamship "America" had been chartered for the team and that first class accommodations would be provided. Among those present were Colonel A. G. Mills, Dr. Greene M. Hammond, Frederick W. Reubin, A. A. U. secretary treasurer, Thomas W. Cahill, U. S. football association secretary, John T. McGovern and Henry Breckenridge.

She'll F'x 'Em

Miss Dorothy Gladys, Colorado Springs, Col., is the first woman ever graduated from the mechanical division, School of Engineering, University of Kansas. She's always been interested in motors, and will take up experimental work with new types of aviation engines.

SCHOOLS SUSPENDED ON ACCOUNT INTENSE HEAT

(By The Associated Press.)

WINCHESTER, Va., June 6.—Intense heat caused a suspension of classes at the Handley Schools yesterday afternoon. A temperature of 91 degrees was recorded.

The schools are conducted in portable buildings, pending completion of the new plant. The portable rooms are roofed with tar paper which absorbed the heat from a merciless sun.

U. S. Will Not Be Represented In Lawn Tennis

By LAWRENCE PERRY.

(Copyright, 1933, By The Bee)
NEW YORK, June 7.—The United States will taste none of that Delectable International flavor in Women's Lawn Tennis this year which France and England are enjoying. It had been hoped that England would send over some of her star players who have picked up the standard of tennis prestige long fallen from the hands of their brothers. But while the invasion is certain to happen—officials of the United States Lawn Tennis Association are now on their way abroad to discuss plans as to this and other future international events—it will not be this year.

But in 1934, if all goes well, the chances are that Mrs. Beamish, Mrs. Peacock, Miss Kathleen McKane, Miss Elizabeth Ryan and other English stars will journey to these shores to share in competition for the Wimbledon Trophy. This cup, by the way, has had thus far a most uneventful history.

GRANVILLE GUDE WINS SINGLE SCULL RACE

(By The Associated Press.)

WASHINGTON, June 6.—Granville Gude, of the Potomac Boat Club, Washington, defeated Walter Gilmore, of the Bachelors' Barge Club, Philadelphia, in a special mile singles scull race today, the feature event of the Southern Rowing Association Regatta staged on the Potomac river.

Potomac Boat Club with 38 points won first honors in the regatta. Arundel Boat Club, Baltimore, was second with 18 points; Ariel Boat Club, Baltimore, third, 17 points, and the Virginia Boat Club, Richmond, Va., was fourth with 13 points.

The Ariel Club won the inter-club eight oared scull race. Gude also won the senior singles scull event.

"It's Over, Over There," Says Psychologist-Song Writer

Famous Bugle Call Used To Interpret Spirit of the Day

New York City.—Psychologists

who predicate human action from observation of humans at play, say that America is due for a long era of peace. They draw this conclusion partly from a study of the songs and games which engross the energetic younger generation just now.

The new peace conference game with its pawns all moving for harmony, which children have substituted for checkers, is an interesting example. So is "Good Night," a waltz built on the bugle theme of "taps." This song sounds the peaceful end of the dance on most ball room floors

about "three o'clock in the morning," these days.

Con Conrad, who wrote it, says he's finishing what George Cohan began when he built "Over There" on reveille.

"It's a sort of way of letting the public in on a grand celebration of the end of the war," Mr. Conrad explains. "Using 'taps' to close the dance today seems to emphasize that it's really 'over, over there.'"

"I have just returned from two years in Europe where I tried several times to write the song, but the chaotic conditions got under my skin and I simply could not work on a relaxing peaceful tune. But here at home I could immediately sense that for us, anyway, it really is 'over.'"

HOME OWNERSHIP

Means the end of wasting money by paying rent. It makes a person thrifty.

It makes a better community in which to live.

It is the beginning of self-respect and lays the foundation for Financial Success.

It protects and shelters our loved ones.

STRIKE DELAYED.

Chicago, June 6.—With a week's respite from the threatened strike on the traction lines, Mayor Dever today continued his efforts to get the men and their employers together. Neither side so far has shown signs of yielding. If the men on the surface lines go out, the elevated road employees will strike also as will track men and electricians.

BANKING BETTER.

PORTLAND, Ore., June 6.—Portland's banking business has increased so rapidly that even the modern structures now housing the financial institutions are inadequate. The United States National Bank has just been given permission by the city to build a new structure with a 24-story tower which will be the highest building in the country.

Marketing

If some one were to say to you, "I can show you how to market your ability to advantage" would you listen?

Every day a great many people are marketing their abilities in a most forceful way through Register and Bee Want Ads.

Many men and women in every walk of life are securing jobs, renting rooms, buying, selling, exchanging—all by means of Register and Bee Want Ads.

The Register or Bee is read in nearly every home and place of business in this section.

75,000 Readers of The Register and Bee awaits your message daily.

Statutory Charge Against Purnell

(By The Associated Press) ST. JOSEPH, Mich., June 6.—Armed with a warrant for "King" Benjamin Purnell charging him with a statutory offense against a fifteen year old girl, George C. Bridgman, Berrien County sheriff and a dozen deputies raided St. Joseph, Mich., tonight, seeking the vanished cult leader. Purnell was "not" found at St. Joseph, or any other buildings at the colony.

The warrant, which was signed Saturday by Judge Charles E. White, of the Berrien County Circuit Court, was issued on complaint of Gladys Bamford Rubel, of Detroit, once an inmate of St. Joseph. She charges Purnell assaulted her over a period of three years, from the time she was 13 years old.

Insurance of the warrant was kept secret until today to give Sheriff Bridgman an opportunity to lay his lines for the possible apprehension of Purnell at some one of the various places where it is suspected he may be in hiding.

The sheriff and his aides searched each of the 100 or more rooms of St. Joseph, the adjoining structure known as "Benjamin's House" and the annex, which is connected with "Benjamin's House" by an enclosed bridge.

Mrs. Rubel went to Niles, Michigan, home of Judge White, last Saturday from Detroit at the suggestion of Judge Harry Dingerman who is conducting the one man grand jury investigation into the activities of the colony. Judge White was asked to issue the warrant to forbid any question of the validity of the warrant if it were issued outside of Berrien County.

One specific charge made by Mrs. Rubel places the date of an alleged assault as October 1, 1919, which comes within the six year period of the statute limitations.

Special Commissioner of said Commissioner has been given in accordance with the Decree appointing him as such.

Arrest of Gang Broke Up Plot

(By The Associated Press)

NEW YORK, June 6.—Alfred Marsano, called the head of a vast counterfeiting plot broken up by his arrest with twelve alleged accomplices last night, was held in \$10,000 bail today when he pleaded guilty to a charge of counterfeiting.

Millions of spurious government revenue stamps, whiskey and champagne labels with the plates from which they were printed, were seized in two raids conducted by Joseph A. Palma, chief secret service operative, Jeff Conrad, who was charged with having designed the plates, with Robert Timoth and Antonio youlo alleged go-between, were held in \$2,500 bail each, and Barnett Mitchell, a member of the band, was held in \$1,000 bail. Others were paroled in custody of their attorney.

A nation-wide plot to withdraw liquor through bogus permits and the flooding of the country with imitation liquor in bottles with counterfeit labels and stamps was declared by Chief Palma to have been broken up by the raid.

The counterfeiting, it was said, worked in several groups, one of which manufactured illicit liquors, another counterfeited medical prescriptions to deplete the supply of genuine liquor, while the third forged withdrawal permits to obtain legitimate liquor from warehouses.

CHICAGO, June 6.—H. F. Eustis, passenger traffic manager of the Chicago, Burlington and Quincy railroad said today that he expected more than a half million tourists to visit the Colorado, Yellow Stone, Glacier and Rocky Mountain National parks this summer.

The piano pupils of Miss Rita Enright will give their annual recital tonight (Thursday) at 8:15 in the Sunday school of the church of the Epiphany.

TO VOTERS OF PITTSBURGH I beg to announce that I will be a candidate in the democratic primary in August next, for nomination for the office of commonwealth's attorney for this county. I will feel greatly indebted and deeply grateful to every man and woman who may favor me with support. Respectfully yours, GEORGE T. RISON, 3-28 B2t

BRIGANDS LAST STAND

Into these hills, ten miles from the scene of their recent depredations, Chinese bandits in the province of Shantung fled with their captives after wrecking a train and kidnapping foreigners, including several Americans. Troops are surrounding them. Note the pagodas dotting the hillsides.

Daily Puzzle

S * * * S
E * * * E
* * * R * *
M * * * M

The letters shown above form a "cross-word" in which the word "serum" may be read from the upper left corner to the lower right, and from the upper right to the lower left. The puzzle is to fill in the stars with other letters, so that each line, a great many answers are possible. Can you discover five words that are suitable?

Yesterday's answer:

The man had 1024 wooden blocks. He formed half the blocks (which were cubical in shape) into the large cube, which measured eight on a side (8x8x8=512). He then formed the remaining half of the blocks (512) into a square around the cube. As the bottom layer of the cube contained 64 blocks, he thus formed a square of 512 blocks (512 plus 64). 576 is a square number, being the product of 24x24.

LOWER TEMPERATURE

(By The Associated Press)
WASHINGTON, June 6.—Lower temperature for the Middle Atlantic States was forecast tonight by the weather bureau. Little change from the prevailing hot weather is in sight however, for other sections east of the Mississippi River. Considerable cloudiness and thunderstorms are predicted.

Shriners to Erect An Institution For Crippled Children

\$250,000 Hospital Will Be Built at Richmond or Roanoke.

By GEORGE H. MANNING
(Washington Correspondent of The Danville Bee.)

WASHINGTON, D. C., June 7.—The Ancient Arabic Order of Nobles of the Mystic Shrine, more generally known as just Shriners, are planning to build at either Roanoke, or Richmond, a \$250,000 hospital for crippled children.

This is part of the plan adopted by the Shrine, Conclave, when meeting at Des Moines two years ago, to build eleven children's hospitals in different parts of the country as a constructive and benevolent work of the Shrine organization.

Three of the hospitals have already been built and are in operation, at Shreveport, one between Minneapolis and St. Paul, known as the Twin Cities Hospital, and the third at St. Louis. The St. Louis hospital is to serve also as a training school for physicians and nurses who will later be distributed among the ten other institutions. A fourth hospital is almost completed at San Francisco.

The seven others are to be distributed all over the country; one at Chicago, one at Portland, Oregon; one at a mountain point yet to be chosen in the Mississippi Valley; one at Philadelphia, one at Montreal, and one in Virginia and another at a point in New England.

The Shrine committee in charge of this enterprise, of which Sam P. Cochran of St. Louis is chairman, will shortly visit Virginia and inspect several sites in Roanoke and Richmond with a view to locating the Virginia hospital in one of these two cities.

The Shrine plan for hospitals in every section of the country for crippled children was adopted two years ago at the suggestion of W. Freeland Kendrick of Philadelphia, Imperial Potentate in 1920. Under this plan every Shriner is assessed \$2 a year. With 600,000 Shriners, that is a minimum of \$1,200,000 a year for this fund. But it is much more than that because many Shriners make large contributions and so do many Temples far above their required minimum.

Kamitz Temple, and especially Past Potentate R. H. Angrell of Roanoke, is making an active fight to have this Virginia hospital located at the Magic City. They have learned that the hospitalization committee will visit Roanoke within a month and are preparing to make a strong presentation of their claim that Roanoke is the logical place for the institution of mercy.

These hospitals treat only children whose parents or guardians have no funds with which to have them treated elsewhere. That is the only requirement for entrance, for the child may be of any creed, nationality, or color.

The committee in charge of construction and operation of these hospitals consists of Sam P. Cochran,

chairman; Forrest Adair, Atlanta; W. Freeland, Philadelphia; Bishop Frederick W. Keator, Tacoma; Dr. O. M. Landstun, Helena, Montana; and John D. McGilvray, of San Francisco.

FRANCE PLANS GREAT ELECTRIC DEVELOPMENT

(By The Associated Press)

PARIS, June 6.—Electricity in France, held back by the war, its devastation and the upward swing of prices, is now being futhered in many ways by the government, and within a few years many pretentious plans should be completed.

The greatest progress is being made in the devastated region, for there villages and towns must be built from the ground up and an electric installation frequently precedes the government, in reimbursing owners for destroyed factories, urged from the first that manufacturers motorize their plants.

Water-power development in the southeastern mountainous region is well under way, and power soon will be available for the first stretches of electrified railroads. In Brittany, on the Atlantic coast the tide as a source of power soon will be tested in an experimental installation.

Electric appliances for cooking and cleaning, which came formerly almost entirely from America and Italy, are now being sold in France. Electric stoves recently appeared, but the French cook still sticks to her hard coal stove.

STUDENT KILLED AT RICHMOND

(By The Associated Press)

RICHMOND, Va., June 6.—Hugh Kidd, 20-year-old student of the University of Richmond, was killed in front of the Jefferson Hotel early this morning by a speeding automobile. The youth had attended a dance at the hotel in connection with the commencement exercises of the University and had started for his home when a heavy touring car struck him. His body was caught on the fender of the machine and was dragged twenty or thirty feet. Kidd was huried to a nearby hospital but died soon after reaching the institution. Witnesses said the automobile did not slacken speed and the identity of its driver was not known.

NO REPORT IS MADE ON STATUS OF PRISONERS

(By The Associated Press)

SHANGHAI, June 7.—Forty-eight hours have passed since any report on developments in the negotiations for release of eight foreigners held by mandatis on Patzuku Mountain has been received from newspaper and press associations correspondents at Tsaochwang, where the parleys are being conducted.

The only word from Tsaochwang early today was a private message saying the negotiations were "progressing favorably."

Russia Emerging From Famine Faces Period of Impoverishment

Colonel William M. Haskell, director of the Russian operations of the American Relief Administration, recently announced, from this office in Moscow, that although great poverty still exists and will continue to exist in Russia, the need of actual famine relief, as distinct from a general level of poverty, was at an end and that for the future reconstruction aid was required.

Secretary Hoover, Chairman of the A. R. A. which with its co-operating bodies has saved the lives of some 11,000,000 Russians by administering food and medical relief to the value of some \$70,000,000 since the signing of the Riga agreement, in August, 1921, and which has undertaken to feed up to 3,000,000 children until the next harvest, says that "if the next harvest is successful the continued shipment of special foods for children, should not be necessary." While recognizing the great need of reconstructive measures, Secretary Hoover sets forth clearly the position of the American Relief Administration, which "being an emergency organization solely for famine, cannot undertake reconstruction." "It is impossible," Mr. Hoover writes, "to picture adequately the complete impoverishment of a great nation. The war, the revolution, the

Anti-Klan Crowd Storms Meeting, Menaces Speaker

NEW YORK, June 7.—The authorities here said that a crowd of about 250 persons, outside the hall in which the Rev. Oscar Haywood, national lecturer of the Ku Klux Klan, barely escaped being injured at the night. It occurred at an invitation Klan meeting in Junior Hall, No. 154 Smith street, Perth Amboy, when anti-Klan invaders got possession of the meeting.

Several days ago typewritten invitations were mailed from Perth Amboy, the invitation to be presented at the door as a cord of admission. Investigation by interested persons showed that no Catholic or Jew received one.

Shortly before 9 o'clock there were about 250 persons outside the hall—more than were within. Among those outside several newspaper men were turned back at the door.

By 9 o'clock about 200 men had climbed the stairs and shown their credentials and between 250 and 300 citizens were standing downstairs, waiting for the speaker to appear.

John V. Burke, Principal of Public Schools Nos. 6 and 8 and Grand Knight of Perth Amboy Council, Knight of Columbus, and Joseph Dalton, Deputy Grand Knight, hastened to the scene.

"What not enter the hall?" some one asked. Another replied it was an invitation meeting.

"It's an American meeting—and we're 100 per cent. Americans," someone said in the crowd shouting.

The group moved toward the dimly lit stairs, Burke and Dalton somewhere near the lead.

Up the stairs the crowd pushed, some laughing and shouting; others in a more serious mood.

Haywood was speaking on Jewry. If the entrance of the uninvited visitors disconcerted him there was no visible evidence of it.

Haywood continued to urge that all Protestants show a united front against the Jews. The crowd in the rear listened intently.

A man standing in the doorway, grasped the opportunity to put a question.

"Now, why do you exclude the Catholics?"

The question was yelled by Isaac Alpern, president of the Perth Amboy Council.

The speaker said that in due time he would speak of Catholicism.

"Now, regarding the Jew?"

But an argument had begun in the ranks of the intruders.

Then some one screamed: "Let Alpern speak—we want Alpern!"

There was a general rising and knocking over of chairs. Haywood tried to continue his speech, but he was drowned by the clamor.

Epithets were exchanged and there were invitations to "fight it out."

Several accepted. A window or two were smashed. Two policemen escorted Haywood off the stage and into an alcove, where he remained.

"Everybody out—and in good order—you folks quit rowing," a policeman commanded.

Many of the intruders reformed their broken ranks outside the hall, and an occasional jeer was raised.

Haywood. Some one yelled: "Let's get Haywood!" Mr. Alpern made himself heard: "Put up your hands!" he commanded. The movement to do violence to the Klan lecturer was still-born.

Some of those who continued their arguments while descending the stairs, parried on the street after shouting insults at one another. Others wanted to vindicate their own "100 per cent. Americanism." These fought until tired—or beaten.

COTTON MARKET

(By The Associated Press)

NEW YORK, June 7.—The feature in the cotton market was the continued strength of near positions. The opening was steady at an advance on July and August while later deliveries were 2 to 12 points lower. There was buying of July by trade interests as well as covering by shores, however, and that month sold up 38 points higher.

Cotton futures opened steady:

July	27.15
October	24.24
December	23.84
January	23.54
March	23.47

TWO MEN KILLED IN FIREWORKS EXPLOSION

(By The Associated Press)

CARDINGTON, O., June 6.—Two men were killed and the one-story plant of the United States Firework Company manufacturers of fireworks was demolished today when explosives being mixed by the men were ignited. The other men in the building at the time of the explosion were not seriously injured.

DEAN MAPHIS GETS 2 HONORS

(By The Associated Press)

UNIVERSITY, Va., June 6.—Charles Gilmore Maphis, dean of the summer quarter and director of extension at the University of Virginia, has the distinction of receiving two honorary degrees from separate colleges within the short space of twenty-four hours. Last night Roanoke College conferred the degree of Doctor of Laws upon Dean Maphis and today he was the recipient of the degree of Doctor of Pedagogy from Davidson College.

Dean Maphis is a graduate of the normal school of the University of Nashville and came to the University of Virginia in 1906. Later he became professor of secondary education and in 1920 he was made dean of the summer quarter, director of extension and professor of education.

NEW DORMITORY AT W. & M. COLL'E

(By The Associated Press)

WILLIAMSBURG, Va., June 6.—Ground will be broken June 12 for the erection of the new fire-proof men's dormitory at the college of William and Mary. Formal exercises presided over by Dr. James Hardy Dillard with the graduating class participating, will mark the event, which comes in the midst of the college finals.

The new dormitory will cost \$171,000 and will be erected by J. C. Curtis, of Denbigh, Va., who has contracted to complete the work within a year. The building will be a counterpart of Jefferson Hall, the girls' dormitory.
